Volvo XC90 Crowned SUV of the Year at the UK Car of the Year Awards 2016

- **Seven-seat XC90 voted best SUV by panel of expert journalist judges**
- **Praised for its stand-out design, technology, luxury and safety**

The Volvo XC90 has been voted SUV of the Year at the UK Car of the Year Awards 2016.

The prestigious awards are judged by a 27-strong panel of motoring journalists, who write for publications including The Sunday Times, The Telegraph, Top Gear and Auto Express.

“It gives us great satisfaction that the XC90 continues to receive the attention it deserves around the globe. The XC90’s distinctive exterior design and calm interior combine to create a relaxed confidence in the car that is also reflected in its handling and performance. It is proof once again, that Volvo is a brand on the move. Volvo has changed the conversation in the premium segment, and people are listening,” said Håkan Samuelsson, President & CEO, Volvo Car group.

The XC90’s design, technology, safety and interior packaging came in for particular praise. “A stunning cabin – packed with game-changing technology – is combined with luxury, space and great engineering, making the flagship Volvo a very enjoyable driving experience,” said John Challen, the Editor and Managing Director of the UK Car of the Year Awards.

Built on Volvo’s ground-breaking SPA platform, the XC90 is the most technologically advanced car

Volvo has ever made. It is available with an innovative petrol-electric plug-in hybrid powertrain that offers 407 hp yet CO₂ emissions of only 49 g/km, which equates to a monthly Benefit-in-Kind tax bill of just £100.67 for a higher-rate taxpayer.

It also leads the field in terms of connectivity. The standard Sensus Connect system combines an intuitive nine-inch touch screen display – including pinch and zoom functionality – with a sophisticated voice control system. This provides access to the internet and a range of cloud-based apps, while the option of Apple CarPlay allows you to control selected functions of your phone, such as music streaming, directly from the Sensus Connect display.

Volvo Car Group in 2015

For the 2015 financial year, Volvo Car Group recorded an operating profit of 6,620 MSEK (2,128 MSEK in 2014). Revenue over the period amounted to 164,043 MSEK (137,590 MSEK). For the full year 2015, global sales reached a record 503,127 cars, an increase of 8 per cent versus 2014. The record sales and operating profit cleared the way for Volvo Car Group to continue investing in its global transformation plan.

About Volvo Car Group

Volvo has been in operation since 1927. Today, Volvo Cars is one of the most well-known and respected car brands in the world with sales of 503,127 in 2015 in about 100 countries. Volvo Cars has been under the ownership of the Zhejiang Geely Holding (Geely Holding) of China since 2010. It formed part of the Swedish Volvo Group until 1999, when the company was bought by Ford Motor Company of the US. In 2010, Volvo Cars was acquired by Geely Holding.

As of December 2015, Volvo Cars had almost 29,000 employees worldwide. Volvo Cars head office, product development, marketing and administration functions are mainly located in Gothenburg, Sweden. Volvo Cars head office for China is located in Shanghai. The company's main car production plants are located in Gothenburg (Sweden), Ghent (Belgium), Chengdu and Daqing (China), while engines are manufactured in Skövde (Sweden) and Zhangjiakou (China) and body components in Olofström (Sweden).
