Volvo Cars introduces refreshed S90

RICHMOND HILL (Monday, March 23, 2020) – Volvo Cars has revealed a refreshed version of the S90 sedan including a refined exterior design and a brand new, state-of-the-art available sound system by Bowers and Wilkins.

In terms of exterior design, Volvo designers have introduced a number of refinements on both the front and rear of the S90, including new fog lights, a new spoiler design and a new lower front bumper. A range of new exterior colours and wheel options further improve options for personalisation.

Inside, a comprehensively upgraded available Bowers & Wilkins audio system introduces an even better in-car sound experience, thanks to new features such as an upgraded amplifier, automatic vehicle noise compensation and a new setting that mimics the sound of your favourite jazz club.

All models in the 90 and 60 Series now also come with double USB-C charging points in the rear, replacing the 12 volt outlets. The wireless charging functionality for smartphones, first introduced on the small XC40 SUV, will now also be available on most variants in the 90 and 60 Series.

In terms of interior materials, the exclusive tailored wool blend seats first introduced on the XC90 last year are now also available on all 90 and 60 models, while there is also a leather-free interior option for the top trim levels.

Note to editors

This is a global press release. Availability of features, offers and services described above may vary, depending on market.

Volvo Car Group in 2019

For the 2019 financial year, Volvo Car Group recorded an operating profit of 14.3 BSEK (14.2 BSEK in 2018). Revenue over the period amounted to 274.1 BSEK (252.7 BSEK). For the full year 2019, global sales reached a record 705,452 (642,253) cars, an increase of 9.8 per cent versus 2018. The results underline the comprehensive transformation of Volvo Cars' finances and operations in recent years, positioning the company for its next growth phase.

About Volvo Car Group

Volvo Cars was founded in 1927. Today, it is one of the most well-known and respected premium car brands in the world with sales of 705,452 cars in 2019 in about 100 countries. Volvo Cars has been under the ownership of the Zhejiang Geely Holding of China since 2010.

In 2019, Volvo Cars employed on average approximately 41,500 (41,500) full-time employees. Volvo Cars head office, product development, marketing and administration functions are mainly located in Gothenburg, Sweden. Volvo Cars head office for APAC is located in Shanghai. The company's main car production plants are located in Gothenburg (Sweden), Ghent (Belgium), South Carolina (US), Chengdu and Daqing (China), while engines are manufactured in Skövde (Sweden) and Zhangjiakou (China) and body components in Olofström (Sweden).

Under its new company purpose, Volvo Cars aims to provide customers with the Freedom to

Move in a personal, sustainable and safe way. This purpose is reflected into a number of business ambitions: for example, by the middle of this decade it aims for half of its global sales to be fully electric cars and to generate half of its revenue from its direct consumer business. Volvo Cars is also committed to an ongoing reduction of its carbon footprint, with the ambition to be a climate-neutral company by 2040.
