

## Press Release

Sep 18, 2003 | ID: 1569

# 2004 Volvo V70

The car: Versatile, stylish and safe, the V70 wagon is the quintessential Volvo. Each of the five versions of V70 has distinct personalities, yet shares the Volvo commitment to versatility, practicality and safety.

### What's New?

- The high performance V70 R wagon, with 300 h.p., electronically controlled all-wheel drive, Volvo's Four C active suspension, 6-speed gearbox and Brembo brakes, is the most powerful Volvo wagon ever made. New for 2004.
- The popular and powerful 2.5T engine that debuted last year as the standard power for the all-wheel drive version of the wagon becomes the standard power in the front-wheel drive V70 2.5T, replacing the 2.4T.
- Steering feel and precision are improved with new ratios and optional speed-sensitive steering
- New remote door lock with integrated key, new instrument treatment, optional Bi-Xenon clear lens headlamps, new exterior colours and option packages
- Special 'Titanium Edition' 2.5T with unique appearance and high-value option group

### Key facts

- The new V70 R brings to five the number of versions of the most popular Volvo wagon: V70 2.4, V70 2.5T, V70 AWD, V70 T5 and V70 R
- The V70 AWD is available as a special order
- Described as a marriage of 'safety + versatility', the V70 is built without compromise as a wagon.
- V70 is designed around Volvo's large car platform but is not a derivative of an existing sedan. Despite its five-door configuration, the V70 has exceptional torsional rigidity that permits the MacPherson strut front and multi-link rear suspension to deliver remarkable and predictable handling, regardless of the load it carries.
- The current generation V70 was introduced in 2000.

Price: \$37,995 (V70 2.4), \$42,995 (V70 2.5T), \$45,495 (V70 AWD), \$47,995 (V70 T5) and \$59,995 (V70 R)
