Volvo Cars gives the new face of Volvo to the V40 (UK information)

Volvo Cars gives its bestselling V40 and V40 Cross Country the new face of Volvo for Model Year 2017, with trim updates across the range.

Central to the model year exterior updates are new LED 'Thor's Hammer' headlights, resulting in a confident new look shared with Volvo's new XC90, S90 and V90. In the UK, these all-LED lights mark the V40 and V40 Cross Country out as the first models in the segment to get LED headlights as standard across the range. Also new are grille meshes featuring the updated and more visually striking Volvo Iron Mark.

"The V40 is the best-selling Volvo model in the UK, making it a vital car for the company. With the updates for Model Year 2017, we're making this already very successful model even more attractive to customers," said Nick Connor, Managing Director of Volvo Car UK.

The exterior update includes the addition of eight new wheels across the V40 and V40 Cross Country models, and five new colours to the V40 range, including the completely new Amazon Blue and Denim Blue, as well as three colours already used by other models in the Volvo Car UK portfolio: Bursting Blue, Mussel Blue and Luminous Sand.

Continuing its innovative approach to powertrain engineering, Volvo has reduced CO₂ emissions on its popular D2 manual powertrain to just 89 g/km in all trim level and wheel options.

The V40's trim structure has also been changed in line with that of the new XC90. Customers can now choose from Momentum and Inscription versions, along with the sports-inspired R-Design and the rugged Cross Country.

In a cue taken from the award-winning Volvo Concept Estate, a new upholstery called City Weave will be added. Several new interior panel trims will also be offered: Milled Aluminium, Black Grid Aluminium and Stealth Aluminium. New tread plates will be added for the R-Design and Inscription trim levels, and an updated key fob with the new Volvo logo will be available.

Volvo On Call

The Volvo On Call smartphone app, which allows remote access and control over a wide range of in-car features, receives a substantial update. Volvo On Call already delivers wearable connectivity (Apple Watch/Android Wear), and the new Microsoft Band 2 connectivity now enables voice-control for certain features when using Windows 10-based smartphones.

Other updates to Volvo On Call include a calendar integration function that connects your personal calendar to the mobile app, allowing it to send calendar appointment destinations directly to your navigation on request. For 2016, Volvo On Call will broaden its scope and provide support for up to 10 Volvo vehicles, giving access to all the usual functions across a fleet of cars.

Volvo will also introduce Flic button compatibility with Volvo On Call. Flic allows you to program a single physical 'smart button' to perform several tasks, such as locking your car, and can be used as a shortcut to Volvo On Call services.

Volvo now also offers support for Windows 10 with a new version of the Volvo On Call application that can be used on regular PCs and tablets to interact with your car.

-ends-

Volvo Car Group in 2015

For the 2015 financial year, Volvo Car Group recorded an operating profit of 6,620 MSEK (2,128 MSEK in 2014). Revenue over the period amounted to 164,043 MSEK (137,590 MSEK). For the full year 2015, global sales reached a record 503,127 cars, an increase of 8 per cent versus 2014. The record sales and operating profit cleared the way for Volvo Car Group to continue investing in its global transformation plan.

About Volvo Car Group

Volvo has been in operation since 1927. Today, Volvo Cars is one of the most well-known and respected car brands in the world, with sales of 503,127 in 2015 in about 100 countries. Volvo Cars has been under the ownership of the Zhejiang Geely Holding (Geely Holding) of China since 2010. It formed part of the Swedish Volvo Group until 1999, when the company was bought by Ford Motor Company of the US. In 2010, Volvo Cars was acquired by Geely Holding.

As of December 2015, Volvo Cars had almost 29,000 employees worldwide. Volvo Cars' head office, product development, marketing and administration functions are mainly located in Gothenburg, Sweden. Volvo Cars' head office for China is located in Shanghai. The company's main car production plants are located in Gothenburg (Sweden), Ghent (Belgium), Chengdu and Daqing (China), while engines are manufactured in Skövde (Sweden) and Zhangjiakou (China), and body components in Olofström (Sweden).
