# Volvo C40 Recharge Enters U.S. Well Equipped at \$58,750 Before Tax Credit; Expanded Fast Charging Now Available

- The Volvo C40 Recharge is the first Volvo designed to be purely electric and offer a leather-free interior
- Collaboration with Electrify America includes 250 kWh of complimentary charging for Model Year 2022 vehicles
- Standard wear coverage for the first 4 years or 40,000 miles

**Mahwah, NJ (July 19, 2021)** The Volvo C40 Recharge pure electric will start at an MSRP of \$58,750 in the United States before tax credits. This newest addition to the Volvo electric line-up has all the benefits of an SUV but with a lower and sleeker design. It is the first Volvo model in the company's history designed as pure electric only and the first to feature a leather-free interior.

The C40 Recharge, along with the 2022 XC40 Recharge, introduces new specification level nomenclature – Plus and Ultimate.

The New C40 Recharge will be available in the Ultimate specification level and includes every available feature such as Android Operating System with Google imbedded, oversized fixed Panoramic Moonroof, Pixel LED lighting, Pilot Assist, Harman Kardon Premium Sound, 360° Surround View Camera and Unique 20" wheels. Customers can choose the Fjord Blue Carpet for no additional charge and it may be combined with 4 of the 7 exterior paint colors.

Pre-orders for the C40 Recharge began online in March 2021 and it is currently available to order online at [volvocars.us](http://volvocars.us). Vehicle production will begin in Ghent, Belgium this fall with the first U.S. customer deliveries planned for the fourth quarter of 2021.

With the ambition to be a carbon neutral company by 2040, Volvo Cars is working towards 50 percent of its global sales to consist of fully electric cars by 2025. This focus on electrification takes another step forward via a new collaboration with Electrify America.

All Volvo Car model year 2022 pure electric vehicles in the United States will come with 250 kWh of complimentary charging on Electrify America's network, to be used within the first 3 years. Once the complimentary charging has been fully used within the first 3 years, customers will automatically be eligible for Electrify America's Pass+, with membership fees covered courtesy of Volvo Car USA for one year. This will enable drivers to charge at discounted rates. To date Electrify America's network comprises of 635 public fast-charging stations and is growing. This collaboration, combined with Volvo Car USA's existing ChargePoint affiliation, ensures Volvo pure electric vehicle customers will have easy access to thousands of public charging stations across America.
