Volvo Cars Sets Historic Single Year Record for IIHS Top Safety Pick Plus Awards

- As of March 2021, Volvo Cars has earned more single year TOP SAFETY PICK PLUS awards than any other company since the honors started in 2013
- Volvo Cars continues to set the benchmark for standard safety systems

MAHWAH, N.J. (March 31, 2021) As of March 2021, Volvo Cars has earned more single year TOP SAFETY PICK PLUS (TSP+) awards from the Insurance Institute for Highway Safety (IIHS) than any other automaker since the TSP+ honors began in 2013.

IIHS awards TSP+ awards to vehicles that provide the highest level of safety. Volvo Cars received nine TSP+ awards in February and added five additional models in this latest round of testing, totaling 14 awards for 2021.

The company's focus on standard safety systems, including forward collision warning and automatic emergency braking, combined with advanced pedestrian and cyclist collision prevention, sets Volvo Cars apart from others. Volvo Cars has made these systems standard on all vehicles for several years, while many competitors continue to offer some of these features as options.

"Volvo has been setting safety records for years," said Anders Gustafsson, President and CEO of Volvo Car USA. "We're proud to add this record to our history."

The following vehicles produced after September 2020 have been awarded the TOP SAFETY PICK PLUS award from IIHS as of March 31, 2021:

- Volvo S90
- Volvo S90 Recharge
- Volvo V90
- Volvo V90 Cross Country

The following vehicles have been awarded the TOP SAFETY PICK PLUS award from IIHS as of March 31, 2021:

- Volvo V60 Cross Country

They join the following vehicles awarded the TOP SAFETY PICK PLUS in February:

- Volvo S60
- Volvo S60 Recharge
- Volvo V60
- Volvo V60 Recharge
- Volvo XC40
- Volvo XC60
- Volvo XC60 Recharge
- Volvo XC90
- Volvo XC90 Recharge

Volvo's vision is that no one should be killed or seriously injured in a new Volvo. The company has consistently innovated new safety features, including the introduction of a speed cap in new cars, run-off road protection, and a new suite of safety sensors debuting in the Volvo XC40 Recharge – the first fully-electric vehicle from Volvo Cars.

About Volvo Car USA

Volvo Car USA LLC, (www.volvocars.com/us) is a subsidiary of Volvo Car Group of Gothenburg, Sweden. VCUSA manufactures vehicles for the global market and provides vehicle importation, marketing, sales, parts, service, technology and training support to Volvo automobile retailers in the United States.
