# Volvo earns a spot on 2019 Wards 10 Best Interiors list for all-new V60

**NEW YORK, NY (April 18, 2019)** The all-new Volvo V60 wagon has been named one of the Wards 10 Best Interiors of 2019 by the editors at WardsAuto, a leading source of automotive intelligence.

Each year, the Wards 10 Best Interiors list recognizes the industry's top interior designs available. Wards' editors look at every new or significantly redesigned interior with a focus on fit-and-finish, ergonomics, materials, comfort and aesthetics. For 2019, 32 nominees were considered.

"In the Volvo V60 sport wagon, what's old is new again as the Swedish brand expertly weaves an upholstered plaid interior that is visually stunning, environmentally friendly and uniquely European. But beyond the fabric, the V60 shines as the interior achieves a soothing sense of design harmony with soft-touch surfaces complemented by glistening hard trim. We felt this way three years ago about the larger XC90 CUV when it made the Wards 10 Best Interiors list and ushered in Volvo's new interior design language. We can't wait to see the next interior homerun from Gothenburg."

The Volvo V60, offered with the company's new city-weave textile interior, is the latest torchbearer in a long line of versatile Volvo cars. The V60 shares its Scalable Product Architecture (SPA) platform with the award-winning XC60 (named 2018 North American Utility of the Year and 2018 World Car of the Year), S60 sedan, and four top-of-the-line 90 Series cars, which have been the collective force behind the company's record-breaking global sales performance in recent years.

The five-passenger V60 is available with either a 250 horsepower Front-Wheel-Drive, or a 316 horsepower All-Wheel-Drive Drive-E powertrain. Each has an eight-speed automatic transmission. The V60 also has one of the largest load compartments, with clever storage solutions that make life less complicated. The V60 also touts as standard a number of key interior elements, such as a panoramic moonroof, aluminium inlays, and the award-winning Sensus Connect touchscreen interface.
