Volvo Car USA Announces Model Year 2019 V60 Pricing

ROCKLEIGH, N.J. (November 30, 2018) Volvo Car USA has unveiled pricing for the second generation Volvo V60. Starting at \$38,900, the first V60s will arrive on U.S. shores in early 2019.

The V60 is a five-door, mid-size luxury wagon, underlining the Swedish company's position as a car maker that combines good looks with everyday practicality. To accommodate the Volvo wagon buyer's desire to fully customize their vehicle, the V60 will be offered exclusively via customer order production.

The V60 will be available with two propulsion choices:

- The T5 with front-wheel drive features a turbo-charged Drive-E engine providing 250 horsepower.
- The T6 with all-wheel drive features a turbo and super-charged Drive-E engine producing 316 horsepower.

Pricing for each engine and trim level is found below:

	Momentum	R-Design	Inscription
T5 FWD	\$38,900	\$43,900	Not Available
T6 AWD	\$43,400	\$48,400	\$49,400
Destination Charge	\$995	\$995	\$995

The Momentum level trim offers a generous suite of standard equipment, including City Safety, which works to mitigate or prevent accidents at intersections and with pedestrians, cyclists and large animals. A panoramic moonroof, LED headlamps with Volvo's signature Thor's Hammer, Aluminum inlays and Volvo's award-winning Sensus Connect touchscreen interface are also standard.

Exclusive to the V60 Momentum trim is the new city-weave textile interior, which has received high praise as an alternative to standard leather interiors.

The luxurious Inscription trim adds bright chrome window trim and front grille accents, driftwood inlays, four-zone electric climate control, and leather comfort seats with four-way lumbar and power cushion extensions.

The R-Design adds a dynamic look to the V60, with high gloss black window trim, mirror caps and front grille. A metal mesh inlay joins the heated R-Design perforated leather steering wheel with gearshift paddles, nappa leather sport seats with open grid textile and an R-Design leather wrapped gear shifter.
