# Volvo S60 chosen as IIHS Top Safety Pick+

### New safety award recognizes 2013 models with superior crash protection

**ROCKLEIGH, N.J. (December 31, 2012)** - The Volvo S60 sports sedan can add another award to its list of accolades after the Insurance Institute for Highway Safety (IIHS) announced the winners of their new Top Safety Pick+ awards.

IIHS created the Top Safety Pick+ award to recognize good or acceptable performance in the new small overlap collision test. The S60 is one of two midsize luxury vehicles to currently earn the Top Safety Pick+ award.

IIHS rates vehicles good, acceptable, marginal or poor based on performance in a moderate overlap frontal crash, small overlap frontal crash, side impact and rollover, plus evaluations of seat/head restraints for protection against neck injuries in rear impacts. Top Safety Pick+ winners must earn good ratings for occupant protection in at least four of five evaluations, with no less than acceptable in the fifth test.
