### **About Enity**

Enity is a specialist mortgage provider operating in the Nordic region, creating innovative and inclusive mortgage solutions for approximately 33,000 customers across Sweden, Norway and Finland. Enity commenced operations in 2005, with a mission to provide sustainable access to the housing market for the underpenetrated, high-growth segment of borrowers not always well-served by high-street banks, despite low risk and strong potential. Enity serves its customers through a differentiated product offering across three brands: Bluestep Bank in all its geographies, Bank2 in Norway and 60plusbanken in Sweden. Today, Enity is a profitable market leader based on the size of its mortgage loan portfolio, with lending to the public of SEK 29.3 billion as of 31 March 2025, in a steadily growing market with a low-risk portfolio primarily comprised of fully secured mortgages.
