

PRESS RELEASE

Stockholm, January 31, 2020

Nordstjernan has divested its holding in Rosti Automotive

Nordstjernan has divested its holding in Rosti Automotive AB ("Rosti Automotive"), a company that develops and manufactures injection-molded plastic components to customers in the automotive industry, to Xandor Automotive GmbH ("Xandor Automotive"). Xandor Automotive is owned by Quantum Opportunity Fund II GmbH & Co. KG, a fund managed by Munich based Quantum Capital Partners. Rosti Automotive will henceforth appear as Xandor Automotive.

Rosti Automotive was spun off from Rosti Group AB ("Rosti Group") in 2017. The divestment of Rosti Automotive will not have an impact on Rosti Group, which continues to be wholly owned by Nordstjernan. Rosti Group develops and manufactures injection-molded plastic components to selected consumer and industrial segments as well as the food industry.

The parties have agreed not to disclose the terms of the transaction.

Stephens, Gernandt & Danielsson and Cleary Gottlieb Steen & Hamilton served as advisors to Nordstjernan in connection with the transaction.

Peter Hofvenstam
President and CEO
Nordstjernan AB
