Ramsay Générale de Santé and Capio announce new executive committee for the combined Group

Since 7 November 2018, Ramsay Générale de Santé and Capio have formed a single Group. Having the same ambition of medical excellence, the same way of continuously improving quality of care, yet driven by different backgrounds, we will now build a common future, for the benefit of all.

“Over the last two months, the numerous meetings I have had in each country have convinced me that our different teams share the same ambition of medical excellence, the same way of continuously improving quality of care, yet driven by different backgrounds. Our size, the diversity and complementarity of our jobs, as well as our medical innovations, are major assets that will help us transform the Group, accelerate our development and face the challenges of our changing ecosystem.”, says Pascal Roché, CEO of Ramsay Générale de Santé and Chairman of the Board of Capio AB.
