

New Eurocargo fleet becomes part of the furniture at BOF

BOF expands delivery fleet with five Iveco New Eurocargo rigid trucks

Basildon, August 30, 2016

Long-time Iveco operator BOF has expanded its furniture delivery fleet with five 4x2 New Eurocargo rigid trucks, and describes its Iveco vehicles as the “ever-reliable workhorse” of its business.

The five new arrivals are all equipped with a 20ft rigid box body and roller shutter door, and will be in operation five days a week at the independent furniture provider, transporting the company’s goods for delivery of large projects, plus daily multi-drop missions nationwide.

The New Eurocargo fleet was supplied by Iveco dealer Glenside Commercials, under a five-year Iveco Elements repair and maintenance package. The vehicles are also BOF’s first to showcase the company’s new, cyan blue paint finish and white livery.

BOF Operations Manager Neil Bowen says: “BOF has operated Iveco commercial vehicles for more than 10 years now, and we’ve come to view the company’s trucks and vans as the ever-reliable workhorse of our delivery operations.

“When the time came to expand the fleet, we were naturally drawn to the New Eurocargo, which has greatly expanded on its predecessor’s excellent pedigree as a delivery vehicle, making it the durable, flexible and economically sensible choice.”

Known as ‘The Truck the City Likes’, the New Eurocargo was designed from the ground-up to be both environmentally friendly and manoeuvrable in tight city streets, as well as quiet, fuel-efficient and comfortable for the driver – a real ‘mobile office’, and ideal for BOF’s intensive delivery schedule.

The five New Eurocargo rigid (ML75E16) join a mixed fleet of 13 commercial vehicles at BOF, which includes seven Iveco Eurocargo rigid and two Iveco Daily vans.

Powered by Iveco’s Tector 5 engine, the New Eurocargo – which was named International Truck of the Year 2016 – is capable of producing up to 160 hp between 1,700 and 2,200 rev/min, and up to 680 Nm of torque between 1,100 and 1,600 rev/min.

The New Eurocargo is the only Euro VI medium range vehicle to meet emissions standards with a single anti-emission system – Iveco's HI-SCR technology, which utilises the passive regeneration of the diesel particulate filter.

This means vehicle productivity is increased, as Iveco's HI-SCR system requires neither driver involvement nor downtime from active regeneration. Also, no fuel is utilised to burn particulates and no energy lost to cool down exhaust gases.

Independent furniture provider BOF creates inspiring environments for working and learning. The company works with clients across all major sectors, including some of the UK's leading universities, councils and police forces.

The company has provided its services on notable projects, such as Swansea University's Science and Innovation Bay Campus – the largest educational development of 2015 – plus major projects at the University of Cambridge, University of Warwick, University of Bath and University of Nottingham.

Iveco

Iveco is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). Iveco designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3 – 7 tonne vehicle weight segment, the Eurocargo from 6 – 19 tonnes, the Trakker (dedicated to off-road missions) and the Stralis, both over 16 tonnes. In addition, the Iveco Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

Iveco employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an Iveco vehicle is at work.
