

PRESS RELEASE 1 September 2022

Proact takes the next step as a Career Company — now named one of Sweden's 10 best companies for young talent

Proact was one of 100 companies in Sweden to be presented with the Career Company of the Year 2022 award, an accolade for employers who offer unique career and development opportunities for young talent. The company has now also been voted one of the top 10 employers for young talent in Sweden.

The voting takes place in Karriärsföretagen's qualified Young Professional network, which consists of over 1,000 systems scientists. The result is a top 10 list of organisations that offer Sweden's best career opportunities for young people.

"We are extremely pleased to be further recognised for our commitment and hard work on behalf of our staff. Training has long been an integral part of making our employees happy, developing them personally and, as a team, driving the company forward. We have a special Proact spirit that we are immensely proud of, which is reflected in our low staff turnover and the number of people who choose to return to the company year after year. Being named Career Company of the Year 2022 was great, but to be in the top 10 in Sweden was something we never dreamed of. It proves that our way of working pays off and bears fruit," says Carina Dahl, HR Manager at Proact IT Sweden AB.

About the award

The Career Company Award has been presented since 2011 and aims to guide young talent to a good start in their careers. All employers in Sweden have the opportunity to become a Career Company, but they have to meet certain basic criteria and go through a selection process. In the final stage, a jury meets and together selects the top employers who will become next year's Career Companies. After six months, a vote is also held, resulting in this top list of the ten best companies in Sweden.
