PROACT

PRESS RELEASE 11 April 2024

Proact achieves partner specialisation accreditation for Microsoft Cloud Security

Proact, Europe's leading independent cloud services provider and data centre specialist has attained a new specialisation from Microsoft: Cloud Security. This achievement underscores Proacts commitment to deliver cutting-edge, secure, and compliant cloud solutions to its customers.

The Cloud Security specialisation from Microsoft is a testament to Proacts expertise to design, implement, and manage secure cloud environments using Microsoft's advanced technologies. This specialisation equips Proact with the knowledge and skills to help organisations safeguard their data, applications, and infrastructure in the cloud, ensuring compliance with industry regulations and standards.

As organisations increasingly rely on cloud technologies to drive innovation and growth, the importance of robust cloud security measures cannot be overstated. The new Cloud Security specialisation empower Proact to help its customers build and maintain secure, resilient, and compliant cloud environments that support their business objectives while mitigating risks.

"We are incredibly proud to have achieved the Cloud Security specialisation from Microsoft," says Per Sedihn, CTO at Proact. "This recognition validates our team's dedication to maintaining the highest standards of security and compliance in the cloud. With this specialisation, we are well-positioned to help our customers navigate the complexities of cloud security and implement robust solutions that protect their valuable assets."

Achieving the Cloud Security specialisation demonstrates Proacts expertise in key areas such as identity and access management, threat protection, data protection, and compliance management within Microsoft's cloud ecosystem. This specialisation also reinforces Proacts ability to provide tailored cloud security solutions that address the unique needs and challenges faced by organisations across various industries.
