

Press release 11th of November 2013

Proact delivers storage solution to a leading Swedish telecom company

Proact will update the storage platform for a leading Swedish telecom company. The value of the deal is 21.5 MSEK.

One of Sweden's leading telecom companies has given Proact the task of building the storage platform for the company's Swedish data centers.

– This deal is a continuation of a long-standing relationship with the client. We have been a part of larger expansion projects for the company's Swedish data centers. We are delivering a storage solution that secures both existing and future data storage needs for the clients operation, says Lena Eskilsson, regional manager, Proact.

The implementation of the expanded storage platform will commence during November 2013. The project completion is planned for the end of the year.
