Holmen's business concept is to own and add value to the forest. The forest holdings form the basis of the business – an ecocycle in which the raw material grows and is refined into everything from wood for climate-smart building to renewable packaging, magazines and books. The forest is managed to provide a good annual return and stable value growth while our production operations are run with a focus on profitability and greater value added. In 2017 Holmen's net sales were just over SEK 16 billion and the group has approx. 3 000 employees. Holmen's shares are listed on Nasdaq Stockholm, Large Cap. For more information, visit holmen.com.
