

Affecto Plc – Press Release, 30 January 2017 at 09:00, Helsinki

### **Affecto will implement an insurance core system for Norwegian insurance company Codan**

Affecto has signed an agreement with Norwegian insurance company, Codan Forsikring NUF, for the implementation of an insurance core system. The value of the agreement is approximately 2.1 MEUR.

Codan is aiming to implement TIA out of the box solution and decommission its legacy policy and claims system in order to meet corporate business development goals. Codan is therefore going to migrate its commercial line portfolio to TIA solution version 7.4. Affecto shall provide TIA version 7.4 implementation, configuration, training and data migration services.

Codan's goal is to improve operational efficiency, streamline business processes and compliance controls, automate data flow between 3<sup>rd</sup> parties and improve data quality in the core system.

### **For more information**

For additional information on the Codan agreement or for regional sales, please contact:
