

Akelius Residential Property AB (publ)

Akelius buys in Montreal and Paris

During December 2014 Akelius has acquired three properties with a total of 416 apartments in Montreal and one property with 48 apartments in Paris. The properties in Montreal have been built between 1955 and 1967 and the one in Paris is from 1900. The total value of the transactions amount to SEK 622 million.

Akelius has bought its first property in Paris earlier this year in September and the first one in Montreal in October.

VD, Pål Ahlsén: The acquisitions fit very well to Akelius' strategy of growing in metropolitan areas via cherry picking.

Stockholm, 22 december 2014
