

Turkey's Mediana Health Group invests EUR 10 million in Elekta cancer treatment equipment

ANKARA, Turkey, May 11, 2016 – Elekta (EKTA-B.ST) announced today that Mediana Health Group, one of Turkey's largest private health care networks, invests more than EUR 10 million to purchase sophisticated equipment and software to treat cancer.

The deal includes Elekta's Versa HD™ and Synergy Platform linear accelerators as well as MOSAIQ® oncology information systems and Monaco® treatment planning systems.

Salih Bilgin, Elekta's General Manager for Business Unit Turkey, says: "Mediana is a growing hospital network, with increased focus on cancer care. We are very happy to be able to support them in their ambition to offer the highest quality health care services in Turkey. Their choice of Elekta and our sophisticated Versa HD linear accelerators together with Monaco treatment planning systems, will provide their clinicians with unprecedented accuracy and speed."

Hüseyin Bozkurt, Mediana's Chairman, says the company desires to grow with an increasing focus on cancer treatment. "We plan to open five new hospitals in the coming three years and to increase our presence in the radiation therapy segment with top of the line, latest technology linear accelerators, and fully integrated oncology information systems. We will continue to provide the latest developments in cancer treatment and the highest quality health services in all our hospitals."

Elekta's sophisticated cancer treatment equipment will initially be installed in hospitals in Ankara, Bursa, İzmir and Istanbul. The order was booked in the fourth quarter of Elekta's fiscal year (2015-16) and the first deliveries are expected in May, 2016.
