The purpose of such repurchases is to allow for adjustments of the Group's capital structure and to enable the Company to make future acquisitions of companies or businesses with payment in the Company's own shares. By holding shares in treasury, the Company is also assuring its obligations under the share based incentive programs resolved at the AGM 2019, AGM 2020 and AGM 2021 and the call option Scheme resolved at today's AGM.

Acquisitions shall be made on Nasdaq Stockholm at a price within the price range registered at any given time, which is the interval between the highest purchase price and the lowest sale price. Sale of shares held in treasury shall be possible to make with or without preferential rights for existing shareholders, but not via Nasdaq Stockholm. Sales may be made to finance acquisition of companies or businesses.

In accordance with the proposal of the Board of Directors the AGM resolved to authorize the Board of Directors to decide on a new issue of up to 5 percent of the number of B shares as means of payment during acquisitions. The purpose of the new share issue resolution is to enable more company acquisitions.

The resolution for the Board of Directors is valid until the next Annual General Meeting to decide on the issue of new shares, on one or more occasions, in deviation from shareholders' preferential rights, against payment in cash, by set-off or with non-cash consideration. However, such issues may not cause the Company's registered share capital or the number of shares in the Company to increase by more than a total of 5 percent, based on the Company's registered share capital or the number of shares prior to exercise of the authorization. Set-off shall only be possible against claims in connection with payment for shares in companies acquired by the Company. Issues shall take place on market-related terms and conditions.
