FOR IMMEDIATE RELEASE

WINNING MOVES BRINGS BACK CLASSIC BOARD GAMES LAUNCHES 2013 PRODUCT LINEUP AT AMERICAN INTERNATIONAL TOY FAIR

Danvers, Mass. (February 7, 2013) – [Winning Moves Games](http://www.winning-moves.com), a leading maker of board games, card games and puzzles, unveils their new product line at the American International Toy Fair, Feb. 10-13. Specializing in family fun, the Company is proud to re-introduce [Classic Yahtzee[®]](#) and [Classic Sorry[®]](#) along with the new fast-playing card game [Stop It![™]](#), the updated [Pass The Pigs[®] Pig Party Edition](#) and many more.

The classic games of Yahtzee[®] and Sorry[®] are sure to tug at the heartstrings of adults born in the 60's and 70's – and earlier. Families of a new generation can now relive the wonderful experience from decades ago. With millions sold, Classic Yahtzee[®] and Classic Sorry[®] celebrates the original look and feel of two of history's most beloved games.

In the fast-playing card game Stop It![™] players battle to lay down all of their cards. There are no set turns. Whoever has the next card in numerical and color sequence is the one who plays. With careful planning, you can run the table – but don't get cocky. Opponents can stop gameplay by claiming a "Stop It!" card and start a new run of their own. This fast-paced game is great for families who are short on time.

[Pass The Pigs[®]](#) has sold over 30 million copies in the last 35 years. The updated Pass The Pigs[®] Pig Party features 4 sets of pigs in hot new colors: orange, lime green, hot pink, and electric blue. 4 players can all play at the same time with their favorite colored Pigs.

"Winning Moves is proud to bring back cherished classic board games and we are thrilled to continue that tradition in 2013. Game loving families can enjoy the classic games all over again and they can try something new as well with our affordable new titles" said Phil Orbanes, a noted game historian and President of Winning Moves Games.

Press can preview Winning Moves Games' new and classic games and puzzles at the 2013 American International Toy Fair in New York (**Booth #2751, Jacob Javits Center**).
