

Press release

Gothenburg, 14 September 2020

Bulten appoints Emmy Pavlovic as Senior Vice President Technology and Innovation

As an important part of Bulten’s enhanced focus on technical leadership, a new position has been established in the group’s executive management team. As Senior Vice President Technology and Innovation, Bulten has recruited Emmy Pavlovic, who will join Bulten on 15 December 2020, or earlier if possible.

“We operate in a product focused business and the requirements from the automotive industry as well as other customer segments are changing. For Bulten, this is an opportunity that we are determined to capture. We are serious about being the leader in sustainable fastening solutions with superior functionality and I am very happy that Emmy will join Bulten since she brings a wealth of experience and knowledge in this field”, says Anders Nyström, President and CEO of Bulten.

Emmy Pavlovic, born in 1980, most recently comes from a position as Technical Account Manager at Arcam AB and also has 11 years of experience from leading technical positions at the fastener supplier Nedschroef in The Netherlands, China and Sweden. Emmy holds a MSc in Engineering Physics from Chalmers University of Technology in Gothenburg, Sweden, and a PhD in Materials Science from Delft University in The Netherlands.
