Peab rebuilds Highway 35 south of Linköping

Peab has been commissioned to rebuild Highway 35 south of Linköping on the stretch between Sandtorpet and Björkåkla. The customer is the Swedish Transport Administration and the contract is worth SEK 122 million.

The road between Sandtorpet and Björkåkla will be broadened and rebuilt into a divided 2+1 highway with a center guardrail along an 8.5 kilometer stretch of the road. At the same time measures will be taken to strengthen mass transit.

“Naturally we are pleased to contribute to improving traffic safety and passability on Highway 35. One of the challenges with the project is minimizing the effects on passing traffic and at the same time putting very high demands on safeguarding our personnel,” says Berth Larsson, Region Manager Peab.

The project is a traditional contract. Construction will begin in the spring 2021 and is expected to be completed in September 2022.

The project will be order registered in the first quarter 2021.
