About Us

Headquartered in Winter Springs, Florida near Orlando, Outsource Equipment Company was established in 2000 as a [material handling equipment](#) supplier and [installation services](#) company. Outsource Equipment Company maintains three warehouse stocking locations in Louisville, Kentucky where we stock pallet racking and various used conveyors, forklifts and material handling systems. We fill a niche in the material equipment business by providing our customers with a consultative selling approach for solving problems in your warehouse or distribution operation while offering money savings through the application of used equipment. We specialize in combining pre-owned equipment with new equipment to save our customers money.

At [Outsource Equipment Company](#), our overall objective is to provide our customers with the best possible material handling solution at the best price. Whether it's to provide pre-owned equipment, all new equipment or a combination of both, the professionals at Outsource Equipment Company have the knowledge, experience and resources to find the best solution for your needs.

Outsource Equipment Company is committed to helping our customers achieve their goals at the lowest possible cost with the greatest amount of quality, value and service.

Contact us at sales@osequip.com to see if pre-owned equipment is a viable solution for your project.
