

Sensys Gatso receives three-year TRaaS contract extension, valued at SEK 44 million for speed photo enforcement in Des Moines, Iowa

Sensys Gatso Group, a global leader in traffic safety solutions, through its American subsidiary Sensys Gatso USA, signed a three-year, Traffic-as-a-Service (TRaaS) contract extension with Des Moines, Iowa valued at approximately 4.7 million USD over the contract period, approximately SEK 44 million.

This extension demonstrates the close managed service partnership between the Iowa state capitol Des Moines and Sensys Gatso. The TRaaS partnership began in 2011 and has grown to cover red light camera systems with “speed-on-green” functionality, highway speed enforcement systems and in-vehicle mobile speed enforcement units throughout the City.

Underpinning the leading speed and red light camera technology are Sensys Gatso’s market leading PULS and Xilium software platforms. Through seamless integration of all elements of an automatic traffic enforcement solution from image capture to customer services and payment collection, Sensys Gatso provides the city with a full end to end and turn-key traffic enforcement solution.

“We are proud to continue our relationship with Des Moines and are encouraged that our TRaaS solution continues to support traffic and community safety in a seamless and efficient manner for the City” said Ivo Monnink, CEO of Sensys Gatso Group.
