

Play'n GO Show Certified Excellence!

Play'n GO are consolidating their reputation as the supplier of choice for regulated markets, as they announce their most recent certifications and their plans for new markets.

Already offering content in over 15 regulated jurisdictions globally, this year has seen them move into Sweden, and prepare to enter Portugal, two growing markets in the industry.

While Portugal saw record growth in its land-based casino sector in 2018; Sweden's new regulations have opened up the casino market and Play'n GO were one of the first to take advantage of the new regulations, signing landmark deals with prominent Swedish partners including ATG and Svenska Spel.

The biggest boost to their reputation is the fact they have chosen to make their entire portfolio compliant in the regions they operate in. Rather than selecting some games for each jurisdiction, as is the current norm, Play'n GO have made sure that any operators they partner with have as much of their innovative portfolio available to them as possible. This gives their operators more freedom of choice and a higher quality selection of games for their players.

New certifications that they have implemented include the addition of in-game progressive jackpots in Italy; the offering of video bingo, video poker and a selection of slot and table games in Spain; Nearly 70 additional slot titles available in the Czech Republic and the offering of table games in Colombia.

Play'n GO continue to be at the forefront of the industry in regards to both content quality and compliance controls. **Head of Compliance Sisse! Weitzhandler** spoke about Play'n GO's stance on the issue:

"We are committed to being the strongest supplier in regulated markets. This approach is an integral part of our products and operations. We continuously strive to be even better at what we do not only seeing that our products adhere to the strictest standards while providing a great entertainment experience.

We have a strong presence in regulated markets, and it's growing continuously. Our goal is to expand even further in Europe and increase our presence in Latin America. Wherever we go, our partners can be certain to be fully compliant in those markets."

Founded in 2005, Play'n GO are a leading supplier for slot gaming in the casino industry. One of the first suppliers to recognise and utilise the potential of mobile slot gaming, their innovation has revolutionised the industry and led Play'n GO to the forefront of the casino supplier market. Since its inception Play'n GO have curated a portfolio of award-winning games developed and tailored for compatibility with all devices and operating systems. In addition to this, they also provide back-end services and solutions to ensure operators are equipped to provide the ultimate gaming experience; this includes their casino platform and their server-based gaming solution, OMNY.
