

Play'n GO Announce Latest 'Wild' Slot, Crystal Sun

Simplicity is the watchword for the latest Play'n GO slot title, Crystal Sun, which is officially released today.

A vibrant and 5x5 video slot, Crystal Sun is a straightforward game with lots of fun characteristics that will keep players engaged and entertained.

The planet symbols will align along the game's reversible paylines meaning players will be able to score wins by matching the game symbols left to right *and* right to left, instead of just one way as is standard in most slot games.

The real star of this game is the twist Play'n GO have incorporated into the way the Wilds operate. The game's Wild is represented by a shining sun and, once it lands on a reel, it will expand to cover the whole reel, spreading Wilds across all paylines and increasing a player's chances of winning. The Wild also has the chance of including a multiplier, allowing for winnings earned to be multiplied.

The game is a different tone from the detailed story driven content that Play'n GO has been releasing in the recent past, but it provides an alternative type of experience to players, according to CEO Johan Törnqvist:

"Players are much more knowledgeable now, they know what type of games they want to play, and how and where they want to play it.

But no matter what their focus is, one thing never changes; players know a good game when they see one. So it's important for us to cater to a wide range of tastes and that's why we have such a diverse portfolio of games to offer but, at their core they're all great games and players respect that."

Founded in 2005, Play'n GO are a leading supplier for slot gaming in the casino industry. One of the first suppliers to recognise and utilise the potential of mobile slot gaming, their innovation has revolutionised the industry and led Play'n GO to the forefront of the casino supplier market. Since its inception Play'n GO have curated a portfolio of award-winning games developed and tailored for compatibility with all devices and operating systems. In addition to this, they also provide back-end services and solutions to ensure operators are equipped to provide the ultimate gaming experience; this includes their casino platform and their server-based gaming solution, OMNY.
