

Designing Spaces™ on Lifetime TV Welcomes Liberty Safe and Security Products to “Project Homeward Bound” Series

“Designing Spaces of Hope - Project Homeward Bound” Will Tackle Home Makeover to Transform Home of Injured Vet and His Family

(Pompano Beach, FL – CISION – May 28, 2013) Designing Spaces™, the popular home improvement show on Lifetime Television is pleased to welcome Liberty Safe and Security Products, Inc. to the show. The company will join Designing Spaces as part of the new series “*Designing Spaces of Hope - Project Homeward Bound*,” scheduled to air in late September 2013.

This special edition 3-part mini-series “*Project Homeward Bound*” will tackle a home makeover for a military veteran who returned injured from war in the Middle East. The series will show step-by-step how this military family’s house is transformed into a more livable and healthier home.

Liberty Safe and Security Products have a new technology called SAFELERT which can be added to any safe. It detects motion, temperature, moisture or door activity and alerts the owner via cell if something is going on at their safe. Liberty will be part of the soldier’s home makeover by giving the family a safe way to protect their prized possessions.

“We’re thrilled to have Liberty Safe and Security Products as a valued partner on this special series help the Taylors keep their valuables safe. Nothing is more inspiring than to see organizations, companies and community come together to give back and help out others in need, especially for our military heroes,” said Lysa Liemer, Designing Spaces™ on Lifetime Executive VP of Programming and Chief Operating Officer.
