Polygon strengthens its position as the leading property damage control company in Germany

Polygon has signed an agreement to acquire the company Von der Lieck GmbH & Co (VDL) in Germany. The acquisition will add 25 employees and annual sales of EUR 4 million.

“We are very happy to have reached an agreement with VDL. I have known the company for several years as a strong and respected competitor to Polygon. The company has a very solid market position in western Germany and I am pleased that they are now part of our team. I would like to take this opportunity to welcome our new employees to the Polygon family. Together I am convinced that we will become even stronger and continue our successful development in the German market.” says Andreas Weber, Country President.

The company has a well-established position in western Germany offering both Drying and Leak Detection services.
