Taq a new food experience for Teatergatan

Popular, trendy Teatergatan in Gothenburg will soon be supplemented with a wonderful new food experience. Early next year, the restaurant Taq will open at Teatergatan 30 and will entice customers with fine flavors from all around the world – in the form of tacos.

The owners currently run the popular restaurant Röda Sten in Majorna and plan to offer a cordial and pleasant bar and restaurant environment with a music profile in the middle of Teatergatan.

“Good food featuring rich and unexpected flavors and a cuisine that flirts with many different culinary influences – that is what Taq stands for. We have gained excellent experience from our restaurant Röda Sten, which has been included in the White Guide for restaurants for five years in succession. Now we are looking forward to offering something completely new and different on Teatergatan, which has flourished and become a very popular destination in the area,” says Farok Shakarchi, one of the co-owners of the restaurant.

“In recent years, Teatergatan has become a popular destination for visitors and also has an attractive force for the establishment of new businesses. It feels really great to add another new, exciting actor to the area and it represents a fine confirmation of our long-term strategy for the development of the district,” says Anders Forsling Chief Account Manager; Commercial at Wallenstam in Gothenburg.

The restaurant Taq with flavors from all around the world opens at Teatergatan 30 early next year.
