Proposal regarding remuneration guidelines and other employment terms for senior executives (item 18)

The Board of Directors proposes that the Annual General Meeting resolves on remuneration guidelines and other employment terms for senior executives as follows:

The remuneration guidelines cover total remuneration for the President and other senior executives. After the Annual General Meeting 2021 has resolved on the guidelines, the guidelines are to be applied on remuneration agreed and changes to already agreed remuneration. The guidelines do not cover remuneration decided by Annual General Meeting.

The guidelines’ promotion of the company’s business strategy, long-term interests and sustainability

The purpose of the guidelines is to provide a structure that adapts the remuneration to the company’s strategy, long-term objectives and sustainability. Nobia’s value creating strategy consist of three central components:

- Focus on profitable growth
- Increasing efficiency
- Long-term value creation through continuous sustainability efforts

The company’s strategy prerequisites that Nobia can continue to attract, motivate and retain key employees within the Group. The guidelines must therefore enable appropriate and competitive remuneration to senior executives.

Nobia's sustainability efforts are evaluated and rated continuously by amongst others investors, analysts and civil society participants. Hence, the company's methods and results are reviewed and compared. As a result, the company's sustainability efforts can be continuously developed in line with the demands of its stakeholders demands. The sustainability efforts are an integrated part of Nobia's business that can strengthen Nobia's brand and contribute to an increase of value of Nobia's shares.			

Decision-making process for determination, review and execution of the guidelines

The Board of Directors has established a Remuneration Committee consisting of two members from the Board of Directors, appointed by the Annual General Meeting. The Committee's task is, inter alia, to prepare proposals to the Board of Directors relating to the remuneration for senior executives. The Board of Directors shall prepare proposals for new remuneration guidelines if material changes are needed or at least every fourth year and present the guidelines for the General Meeting to resolve upon. These guidelines are to be applicable from the time of the General Meeting's approval of them, until new guidelines have been resolved (and four years at most). The Remuneration Committee may seek approval of new guidelines at an earlier point in time if circumstances affecting the purpose of the guidelines arise.

The Remuneration Committee shall also follow-up and evaluate programs for variable remuneration to senior executives, the application of the remuneration guidelines and current remuneration structures and levels in Nobia. The Remuneration Committee's members are independent in relation to the company and the Group Management.

Taking into account salary and employment terms for employees

In the Remuneration Committee's preparation of the Board of Directors proposal for remuneration guidelines data on the employees total remuneration, the components of the remuneration and the increase of remuneration as well as growth rate over time has been considered as part of the Remuneration Committee and the Board of Directors basis for decision when preparing and evaluating the appropriateness of the guidelines and the limitations they impose. Trends on the gap between the remuneration for the President and the remuneration for other employees is to be disclosed in the yearly remuneration report.

Forms of remuneration

The remuneration shall be at market level and consist of the following components:

- Fixed cash salary
- Variable cash salary
- Pension benefits
- Other benefits

The General Meeting can in addition to that – and independent of the remuneration guidelines – decide on, for example, share- and share price related remuneration.

Fixed cash salary

Remuneration should be based on the executive's scope of responsibility, experience and performance. The fixed cash salary is to be reviewed annually to ensure salary is aligned to market and competitive.

Variable cash salary

The variable cash salary shall be connected to pre-determined and measurable criteria's that can be financial or non-financial. The criteria's can vary from year to year to reflect business priorities and usually includes a balance between the Groups financial performance (for example profitability and cash flow) and non-financial performance criteria's (for example important strategic, or other sustainability related measures). By this way of applying pre-determined financial and non-financial performance measures that reflect Nobia's business priorities, Nobia considers the possibility of attracting, motivating and retaining key employees to be improved, which contributes to Nobia's business strategy, long-term interests and sustainability.

When the vesting period for fulfilment of the criterions for payment of variable cash salary is closed an assessment is to be made as to what degree the criteria's have been met. The Remuneration Committee is responsible for such an assessment with regards to variable cash salary to the attributable to the President and other senior executives. At the annual assessment, the Remuneration Committee may adjust the targets and/or the remuneration based on extraordinary events, re-organizations or structural changes. Fulfillment of criteria's for payment of variable cash salary shall be measurable during a vesting period of at least 12 months, measurement period for each criterion may be annual or divided by quarter.

The variable cash salary for the President and other senior executives may amount to a maximum of 65 per cent of the fixed annual cash salary. Before any payout, the Board of Directors will assess if potential payout is reasonable, from the perspective of the financial result for Nobia. Nobia reserves the right to reclaim any variable remuneration paid out based on incorrect data and assumptions.

Pension benefits

The President and other senior executives employed in Sweden are entitled to pensions under the ITP system or equivalent. In addition to the ITP system, senior executives in Sweden may be entitled to, after resolution by the Board, an expanded premium based pension right on salary portions exceeding 30 base amounts. Furthermore, the current President has a pension premium including health insurance of 30 percent of a fixed yearly salary. Senior executives' pension benefits shall not exceed 35 percent of the annual fixed salary.

Other benefits

Other benefits can include, inter alia, life insurance, health insurance and company car. For the President and other senior executives, other benefits cannot exceed 10 percent of the fixed cash salary. The President and other senior executives are further entitled to benefits that can be offered to other employees at any given moment.

Additional benefits and additions can be offered under certain circumstances, e.g. in case of re-allocation or in connection with international assignments, in which case benefits and remuneration is determined according to local conditions.

With regard to employment conditions governed by other rules than Swedish, as far as pension benefits and other benefits are concerned, appropriate adjustments may be carried out to comply with compulsory rules or local practice, whereupon the guidelines overall purposes are to be satisfied to the extent possible.

Termination of employment

In case of termination by the company, the termination notice period shall not exceed 12 months. Fixed cash salary during the termination notice period and termination consideration combined shall not exceed an amount equivalent to the yearly fixed cash salary for the President and other senior executives. In case of termination by the employee, the notice termination period may amount to a maximum of six months, without right to termination consideration. The President and other senior executives may have a right to accrued variable cash salary, however not for a period exceeding the period of the employment.

Information on share-related incentive schemes

Nobia has established long-term share-related incentive schemes. The programs which include, inter alia, senior executives and other individuals with management positions, has been decided by the General Meeting and is therefore not within the scope of the remuneration guidelines. The performance requirements used to determine the outcome of

the schemes are clearly linked to the business strategy and thereby to Nobia's long-term value creation, including the Groups sustainability. The performance requirements consist of, for example, profitability and total returns. Further, the schemes require own investments and certain retention periods. Before deciding on the number of shares to be allocated according to the scheme, the Board of Directors shall consider whether the outcome of the long-term incentive scheme is reasonable. For information regarding the proposed long-term incentive scheme and the criteria's determining the outcome, please refer to Nobia's website where the full proposal is available.

Remuneration to Board of Directors

If a member of the Board of Directors complete assignments for Nobia in addition to the tasks in scope of the responsibilities as a board member, remuneration in the form of consulting fees shall apply. Decision about such consulting fees is made by the Remuneration Committee and shall be in line with market level for such work.

Deviation from the guidelines

The Board of Directors may decide to temporary, wholly or partially, deviate from the guidelines if there are special circumstances in an individual case and deviation is necessary in order to ensure the company's financial capacity. As stated above, the Remuneration Committee is responsible for preparation of the Board of Directors decisions on remuneration matters, which includes decisions on deviation from the remuneration guidelines.

Proposal regarding authorisation for the Board of Directors to acquire and sell treasury shares (item 19)

Acquisitions of treasury shares

The Board of Directors of Nobia AB (publ) ("**Nobia**") proposes that the Annual General Meeting authorises the Board of Directors to resolve to acquire treasury shares in accordance with the following.

1. Acquisitions may be made on Nasdaq Stockholm or in accordance with a tender offer to all Nobia shareholders.
2. Acquisitions of shares may not result in the total holding of treasury shares, at any time, exceeding ten (10) per cent of all shares in Nobia.
3. Acquisitions of shares on Nasdaq Stockholm may only be affected at a price within the currently effective registered price interval on Nasdaq Stockholm, meaning the price interval between the highest bid price and the lowest ask price.
4. Acquisitions in accordance with a tender offer according to 1 above shall be affected at a price corresponding to the lowest share price at the time of the offer with a maximum upward divergence of twenty (20) per cent.
5. The authorisation may be used on one or several occasions, but only until the 2022 Annual General Meeting.

The Board of Director's report pursuant to Chapter 19 Section 22 of the Swedish Companies Act will be available at Nobia and on Nobia's website, www.nobia.com, at the latest three weeks prior to the Annual General Meeting and will be sent, free of charge, to shareholders who so request and inform the company of their address.

Sales of treasury shares

The Board also proposes that the Annual General Meeting authorises the Board of Directors to resolve to sell treasury shares in accordance with the following.

1. Sales of shares may only take place outside Nasdaq Stockholm, with or without deviation from the shareholders' preferential rights and with or without payment in kind or payment by way of set-off. Such sales may be made at a price in cash or value for obtained property corresponding to the price for the sold Nobia shares at the time of the sale, with a divergence found reasonable by the Board of Directors.
2. The number of shares that may be sold should not amount to more than ten (10) per cent of the total number of shares in Nobia.
3. Sales in connection with company acquisitions may be made at a market value as decided by the Board of Directors.
4. The authorisation may be used on one or more occasions, but only until the 2022 Annual General Meeting.

The purpose of the abovementioned authorisations to acquire and sell treasury shares is to finance the acquisition of operations through payment with treasury shares and to continuously be able to adapt Nobia's capital structure and thereby contribute to an increase in value for shareholders and enable the assurance of costs and delivery in connection with the Nobia Group's long-term performance share plans.

The possibility to deviate from the shareholders' preferential rights at sales of treasury shares is justified by the fact that such sales may be made with greater speed, flexibility and are more cost-effective than a sale to all shareholders. The company cannot provide shareholders the possibility to exercise any preferential right if the company's treasury shares are used with the purpose of enabling financing company acquisitions or as a part of the execution of the Group's long-term performance share plans.

Proposal regarding (A) the performance share plan and (B) transfer of bought-back shares under the plan (item 20)

The Board of Directors proposes that the Annual General Meeting resolves on a performance share plan ("**Performance Share Plan 2021**") for Nobia AB (publ) ("**Nobia**") and on transfer of bought-back shares according to items A) and B) below.

(A) Performance Share Plan 2021

1.1 Performance Share Plan 2021 in brief

The Performance Share Plan 2021 is designed to drive a long-term value growth for the shareholders and is essentially follows the same structure as the performance share plan adopted at the Annual General Meeting 2019. The purpose of the Performance Share Plan 2021 is to link the employees' rewards to the company's future earnings and value growth and thereby reward both shareholders and the employees concerned. Furthermore, a long-term incentive plan is also considered to facilitate the company's recruitment and retention of key employees, particularly outside of Sweden, where approximately 60 per cent of the target group for Performance Share Plan 2021 are employed.

To participate in the plan a personal investment in shares in Nobia is required. After the vesting period, the participants will be allocated shares in Nobia free of charge, provided that certain conditions are fulfilled. In order to be entitled to allotment of shares, the participant must have had continued employment in the Nobia Group during the vesting period and none of the invested shares shall have been transferred during the same period. In addition, allocation of shares requires that performance targets related to average operating profit (EBIT) are fulfilled.

1.2 Participants in Performance Share Plan 2021

Performance Share Plan 2021 comprises approximately 80 employees consisting of senior executives, senior managers and employees with senior positions within the Nobia Group, divided into two categories. The first category includes the President, group management team and senior managers (approximately 20 persons) and the second category comprises employees with senior positions within the Nobia Group (approximately 60 persons).

1.3 The personal investment and allocation of share rights

To participate in Performance Share Plan 2021, the participant is required to acquire shares in Nobia at market price over Nasdaq Stockholm ("Saving Shares") to a value corresponding to either 25, 50, 75 or 100 per cent of the participant's investment cap. Category one has an investment cap of 20% of the annual contractual salary 2021 before tax and each Saving Share entitles to a maximum of six (6) share rights. Category two has an investment cap of one month's salary 2021 before tax and each Saving Share entitles to a maximum of four (4) share rights. Allocation of shares in Nobia shall normally occur within two weeks after announcement of Nobia's interim report for the first quarter of 2024.

1.4 Terms for share rights

The following conditions apply to share rights:

- (a) Share rights are allocated free of charge.
- (b) The participants are not entitled to transfer, pledge or divest the share rights or exercise any shareholders' rights regarding the share rights during the vesting period.
- (c) Allocation of Nobia shares under the share rights shall normally take place within two weeks after announcement of Nobia's interim report for the first quarter of 2024. To be entitled to receive shares, it is required, with certain exemptions, that the

participant remains employed within the Nobia Group and that none of the Saving Shares acquired initially have been disposed of during the vesting period. In addition, allocation of shares requires that Nobia has fulfilled performance targets according to item 1.5 below.

- (d) If Nobia pays dividends to the shareholders, the participants in Performance Share Plan 2021 will be compensated by an increase in the number of shares that each share right qualifies for.

1.5 Performance target

Allocation requires that target levels established by the Board of Directors are achieved related to average operating profit during the financial years 2021-2023. The Board of Directors will adjust the outcome for items affecting comparability and for effects of any bought-back shares in Nobia.

If the established minimum level for the performance target is achieved, the share rights will entitle to 25 per cent allocation. If the minimum level in the range is not achieved, the share rights will not give entitlement to any allocation while each share right gives entitlement to one Nobia share if the maximum level in the range is achieved. Between the minimum level and the maximum level, allocation will be linear, based on the values in between.

The Board of Directors intends to present the fulfilment of the performance targets in the annual report for 2023. The outcome of Performance Share Plan 2021 will also be included in Nobia's remuneration report for 2023.

1.6 Formulation and administration

The Board of Directors, or a specific committee appointed by the Board of Directors, shall be responsible for the formulation and administration of Performance Share Plan 2021 within the scope of the terms and directions set out herein. If the delivery of shares to persons outside of Sweden cannot be achieved at reasonable costs and with reasonable administrative efforts, the Board of Directors may decide that participants outside of Sweden may instead be offered cash-based settlement. The Board of Directors shall also be entitled to divest shares on behalf of participants in connection with allocation, to cover the employee's tax duty. If significant changes occur in Nobia or in the conditions in which it operates, which would have the effect that the resolved terms and conditions for allocation and the possibility to use the share rights no longer are appropriate, the Board of Directors shall be entitled to make other adjustments.

1.7 Specific evaluation before allocation of shares

Before the number of shares that are to be allocated based on the share rights is finally determined, the Board of Directors shall assess if the outcome of Performance Share Plan 2021 is reasonable. This assessment is made in relation to Nobia's financial result and position, the stock market and other conditions in general. If the Board of Directors in its assessment considers that the outcome is not reasonable, the Board of Directors may reduce the number of shares to be allocated.

1.8 Scope

The number of Saving Shares allocated under Performance Share Plan 2021 is based on the size of the participant's investments and the price of the Nobia share at the time of acquisition. The maximum number of shares in Nobia that can be allocated under Performance Share Plan 2021, including the shares that may be divested on Nasdaq Stockholm to cover costs related to Performance Share Plan 2021, shall be limited to 1,775,000, which represents approximately 0,8 per cent of the outstanding shares and votes. The number of shares included in Performance Share Plan 2021 shall, under conditions that the Board of Directors stipulates, be subject to recalculation where Nobia implements a bonus issue, a share split or a reverse share split, a rights issue or similar corporate actions, with regard to customary practice for similar incentive plans.

1.9 Hedging

In order to secure the delivery of Nobia shares under Performance Share Plan 2021, the Board of Directors proposes that the Board of Directors will be entitled to decide on alternative methods for transfer of Nobia shares under the plan. The Board of Directors therefore proposes that it be entitled to transfer bought-back Nobia shares to the participants or to enter into so-called equity swap agreements with third parties in order to fulfil its obligations under the plan (pursuant to item B) below). The Board of Directors regards the first alternative, i.e. the transfer of bought-back shares to the participants, to be the most cost efficient and flexible arrangement for the delivery of Nobia shares.

1.10 Estimated costs and key ratios

The share rights cannot be pledged or transferred to others. The value for each share equals the share price. Based on the assumptions inter alia that all persons who have been offered participation in the plan participate, that the participants make maximum investments, a full achievement of the maximum levels of the performance target, that approximately 80 per cent of the participants stay in the plan and with certain estimated social security costs, the aggregate estimated costs are approximately SEK 87 million. This estimate is based on generally accepted valuation models using the closing price for the Nobia share on March 15, 2021.

The costs would be equivalent to approximately 0,8 per cent of the market capitalisation for Nobia and full achievement of the performance target, based on the closing price for the Nobia share on 15 March 2021. The plan has no limitation on maximum profits per share right for the participants and therefore no maximum social security costs can be calculated.

The costs are treated as staff costs in the profit and loss accounts during the vesting period, in accordance with IFRS 2 on share-based payments. In the profit and loss accounts, social security costs will accrue in accordance with UFR 7 over the vesting period. The size of these costs will be calculated on the Nobia share price development during the vesting period and allocation of the share rights.

1.11 The preparation of the proposal

Performance Share Plan 2021 has been initiated by the Board of Directors and prepared together with external advisors based on an evaluation of previous incentive plans. The plan has been prepared by the Remuneration Committee and processed at Board meetings during the first months of 2021.

1.12 Other incentive plans in Nobia

Please refer to Nobia's website and annual report for 2020 for a description of all Nobia's other share-based incentive plans. Nobia has no share-based incentive plans other than those described therein.

1.13 The proposal by the Board of Directors

Referring to the description above, the Board of Directors proposes that the Annual General Meeting resolves to introduce Performance Share Plan 2021.

1.14 Majority requirement

A resolution to introduce Performance Share Plan 2021, in accordance with the Board of Directors' proposal, is valid where supported by shareholders holding more than half of the votes cast at the Annual General Meeting.

(B) Transfer of shares under Performance Share Plan 2021

2.1 Background

In order to implement Performance Share Plan 2021 in a cost-efficient and flexible manner, the Board of Directors has considered different methods for ensuring the delivery of Nobia shares to participants upon allocation under Performance Share Plan 2021.

Based on these considerations, the Board of Directors intends to ensure delivery by transferring shares held by Nobia to the participants. A transfer of Nobia's bought-back shares in this way requires a particularly high majority to be met at the Annual General Meeting. In the event that the Board of Directors' proposal regarding the transfer of bought-back shares to the participants does not receive the required majority, the Board of Directors intends to enter into an equity swap agreement with a third party to secure that delivery of Nobia shares can be made to the participants.

2.2 The Board of Directors' proposal on resolution of transfer of bought-back shares to the participants

The Board of Directors therefore proposes that the Annual General Meeting resolves on the transfer of bought-back shares in accordance with the terms set out below:

- (i) Transfer can be made of a maximum of 1,400,000 Nobia shares to participants in Performance Share Plan 2021 (or a higher number that may result from a

recalculation due to Nobia implementing a bonus issue, a share split or a reverse share split, a new share issue or similar measures, in accordance with what is customary practice for corresponding incentive plans).

- (ii) The transfer of shares shall be made without payment and at the time according to the terms and conditions when the participants in Performance Share Plan 2021 are entitled to receiving allocation of shares.

The reason for the deviation from shareholders' preferential rights is that the transfer of the shares is part of executing Performance Share Plan 2021. Therefore, and in light of the above, the Board of Directors considers it to be to the benefit of Nobia to transfer shares in accordance with the proposal.

2.3 Majority requirement

The Board of Directors' proposal under item 2.2 above is valid if supported by shareholders holding no less than nine-tenths of both the votes cast and the shares represented at the Annual General Meeting. The Board of Directors' proposal pursuant to this item B) is conditional upon that the Board of Directors' proposal on Performance Share Plan 2021 is approved by the Annual General Meeting (item A) above).

Proposal regarding change of the articles of association (item 21)

The Board of Directors proposes that the Annual General Meeting decide to change the articles of association. The proposed changes aim at aligning the articles of association with legislative changes. The proposed changes reads as follow.
