

# UROS wins Bronze Medal Award for Smart Cities innovation at Beijing GIOTC

- *The Chinese contest recognises leading IoT innovators globally*

**30th November, 2018 - Hong Kong.** UROS has been named winner of the Bronze Medal Award at the 2018 Global IoT Contest, a respected Chinese contest honouring global IoT innovators held in association with the 2018 Global IoT Congress.

The 2018 Contest application began in March, with participants from China, Finland, Germany, UK, Spain, Italy, Australia, USA, Japan, Hong Kong and Taiwan. Shortlisted innovators gathered in Beijing last week for a final round of competing.

UROS entered the contest with Smart Water Cycle, a Smart City solution that puts together leading high-end IoT and municipal water management expertise for digitalised asset management and process optimisation throughout the entire water cycle. The water cycle can be managed digitally under one turnkey solution, ensuring consistent management and optimisation of all processes of the water cycle from water production to water networks and finally wastewater management.

CMO & General Manager Greater China, Mr. Herbert Chan represented UROS in the contest, and accepted the award: *"We are very proud to receive the Bronze Medal Award. It is a truly fantastic recognition of the dedication and innovativeness of our entire global team. UROS represents the best Smart Water Management solution from Finland, and we are working with multiple Chinese counterparts to bring our IoT technologies to the country. Winning an award in such an important contest definitely means the market's great acceptance of UROS Smart Water solution"*.
