

Press Release 3 July 2020

## Rejlers signs framework agreement with Mälarenergi

**Rejlers is deepening its partnership with Mälarenergi by signing a framework agreement through until the end of 2021, with an option for extension of up to two years. The framework agreement covers electricity grid-related services and meets the requirements and needs that Mälarenergi will have during the period as regards investments in its electricity grid.**

Mälarenergi has high ambitions and is at the cutting edge of services and products in infraservice, i.e. the provision of electricity, heating, water, broadband, energy services and services to organisations, companies and individuals. The company has an extensive electricity grid in the Mälardal region, which extends from Hjälmsjön all the way past Munga, north of Västerås.

“We look forward to continuing to assist Mälarenergi with their network development, while contributing to the development of the company’s sustainable energy mix. The entire region is in a very interesting phase of development and will continue to need a stable and reliable electricity supply, which we at Rejlers are pleased to contribute together with our experienced electricity grid engineers,” says Jonas Böös, Business Developer within Rejlers’ Energy Division.

**About Mälarenergi**

*Mälarenergi is an infraservice company consisting of more than 700 employees. We are close to our customers in Mälardalen, providing them with electricity, heating, water, cooling and fast communication solutions and related services. We offer energy efficiency services to corporate customers in the region and sell electricity to private and corporate customers across Sweden. The group is owned by the City of Västerås and has a turnover of approximately SEK 3 billion.*

**About Rejlers**

*Rejlers is one of the Nordic region’s leading engineering consultancy firms. Using our vision of “Home of the Learning Minds” as a benchmark, we strive to create a platform for continuous learning, development and growth. Increased learning which generates added value for both customers and employees alike. We have 2,400 dedicated experts with cutting-edge expertise in areas such as energy, industry, infrastructure, property and telecom. We are close to our customers and have offices in Sweden, Finland, Norway and the United Arab Emirates. Rejlers recorded sales of SEK 2.6 billion in 2019, and its class B share is listed on Nasdaq Stockholm.*
