Rejlers and Telia Finland strengthen collaboration on fixed telecom network construction

Rejlers Finland and Telia Finland have signed a multi-year collaboration agreement transferring responsibilities related to the construction management of Telia Finland's fixed telecom network to Rejlers.

The scope includes a range of responsibilities, including fixed network availability inquiries, customer-driven construction and construction of large equipment site relocations. As part of the agreement, a team of Telia experts will transfer to Rejlers.

"This agreement deepens our long-standing partnership with Telia Finland and reinforces our position as a leading telecom network expert," says Lasse Vesanen, Business Director, Telecommunications at Rejlers Finland.

The collaboration aims to ensure high-quality, customer-focused telecom services.

"Working with Rejlers gives us greater flexibility in managing construction volumes and helps us to better meet our customers' needs," says Hanna Grönberg, Director of Fixed Access at Telia Finland.
