Bure launches new website

Today we are happy to announce that we have launched an updated version of our website. It's time to present the results of several months of efforts made together with our media agency BullhoundMedia AB. Our goal was to create a straightforward and user-friendly website with a modern graphic design. The main changes are:

- New design
- The website is responsive, i.e. it is adapted for mobile and tablet devices
- More detailed information about our business, employees and portfolio companies
- We have created a new section on our net asset value
- New share graph
- In the Share section, we have added an insider module with data from the Swedish Financial Supervisory Authority (Finansinspektionen)
- New subscription solution for digital distribution of information
- We have created a new section where visitors can download press materials

Welcome to our new website! The address is, as before, <http://www.bure.se/en/>.
