## Season Greetings from Nexam Chemical

All employees at Nexam Chemical wish our partners, shareholders and other stakeholders the best for the holidays and a Happy New Year. It has been an intensive year with progress made in all focus areas and we now look forward to the coming year. This year we have chosen to donate a Christmas gift to SOS Children's Villages to support their work with giving more children a safe and loving childhood.

### About Nexam Chemical

*Nexam Chemical develops technology and products that make it possible to significantly improve the production process and properties of most types of plastics in a cost-effective manner and with retained production technology. The improved properties include strength, toughness, temperature and chemical resistance as well as service life. The improvements in properties that can be achieved by using Nexam Chemical's technology make it possible to replace metals and other heavier or more expensive materials with plastics in a number of applications. In applications where plastic is already used, Nexam Chemical's products can improve the manufacturing process, reducing material use and enable more environmental friendly alternatives. Example of commercial applications: pipe manufacturing, foam production and high-performance plastics. More information about the business will be found on [www.nexamchemical.com](http://www.nexamchemical.com). The company's Certified Adviser is FNCA Sweden AB.*
