Nexam Chemical appoints Marcus Nyberg as new CFO

Nexam Chemical has recruited Marcus Nyberg as new CFO for the company. Nyberg will assume his position on August 1, 2019.

Marcus Nyberg has an MBA from Lunds University and most recently comes from a position as CFO for LGT Logistics. He has a broad experience within finance and controlling in fast-growing and dynamic international companies. Nyberg has experience from establishing international businesses where implementation of administrative processes and financial reporting has been a vital part. Marcus also has a background as auditor. He will be a member of the management team and will assume his position on August 1, 2019.

"It is very gratifying that we have been able to recruit Marcus Nyberg as new CFO for Nexam Chemical. As a listed company and in phase of fast growth, Marcus will, with his experience, strongly contribute to the company's continued development. Governance and control are of great importance as we grow our business and I am convinced that he will be very valuable for the company. I look forward to start working together with him," says Johan Arvidsson, CEO.

"Nexam Chemical is in a very interesting phase of growing and I look forward to start working and to understand the business activities. I believe that my background and the experience I have from other companies in strong growth will contribute to Nexam Chemical's development," says Marcus Nyberg.

About Nexam Chemical

Nexam Chemical develops technology and products that make it possible to significantly improve the production process and properties of most types of plastics in a cost-effective manner and with retained production technology. The improved properties include strength, toughness, temperature and chemical resistance as well as service life. The improvements in properties that can be achieved by using Nexam Chemical's technology make it possible to replace metals and other heavier or more expensive materials with plastics in a number of applications. In applications where plastic is already used, Nexam Chemicals products can improve the manufacturing process, reducing material use and enable more environmental friendly alternatives. Example of commercial applications: pipe manufacturing, foam production and high-performance plastics. More information about the business will be found on www.nexamchemical.com. The company's Certified Adviser is FNCA Sweden AB. FNCA Sweden AB can be reached at info@fnca.se or by phone +46-8 528 00 399.
