About Nexam Chemical

Nexam Chemical develops technology and products that enhance the properties of polymers in terms of strength, impact resistance, temperature resistance, chemical resistance and longevity. This means lighter, stronger, smarter and more durable materials. Nexam Chemical was founded in 2009. The company has deep roots in the research world from both NASA's space program and Ideon in Lund. Today the headquarters are in Lomma. The company is in a strong growth phase and had sales of SEK 110 million in 2018. Production takes place in Scotland, Sweden, Hungary and Poland. Nexam Chemical is represented by dealers and agents throughout Europe as well as in North America and Asia. The Company's Certified Adviser is FNCA Sweden AB. More information about the business can be found at www.nexamchemical.com.
