Nexam Chemical appoints Henrik Bernquist as new Business Development Manager

Nexam Chemical has recruited Henrik Bernquist as Business Development Manager for the company. Henrik Bernquist will take up his position on April 1, 2020 and will most recently come from an assignment at Flint Group, where he worked as product manager. However, most of his career Henrik Bernquist has been placed in Perstorp AB. Henrik Bernquist has a Master of Science in Chemical Engineering with long experience from R&D and Product Management. At Nexam Chemical, Henrik Bernquist's foremost tasks will initially focus on commercially developing the High Performance range.

"It feels extremely positive to be able to start the year with an offensive recruitment. As we have grown very strongly in several areas, there has been a need to strengthen the organization. High Performance is an area where we see great potential. Henry's background makes him very suitable to take on this assignment," says Johan Arvidsson CEO of Nexam Chemical.

"I am very much looking forward to working at Nexam Chemical. This is a company in strong growth where I hope to contribute with my experience. There is a product portfolio that has every opportunity to grow for many years," says Henrik Bernquist

About Nexam Chemical

Nexam Chemical develops technology and products that make it possible to significantly improve the production process and properties of most types of plastics in a cost-effective manner and with retained production technology. The improved properties include strength, toughness, temperature and chemical resistance as well as service life. The improvements in properties that can be achieved by using Nexam Chemical's technology make it possible to replace metals and other heavier or more expensive materials with plastics in a number of applications. In applications where plastic is already used, Nexam Chemicals products can improve the manufacturing process, reducing material use and enable more environmental friendly alternatives. Example of commercial applications: pipe manufacturing, foam production and high-performance plastics. More information about the business will be found on www.nexamchemical.com. The company's Certified Adviser is FNCA Sweden AB. FNCA Sweden AB can be reached at info@fnca.se or by phone +46-8 528 00 399.
