### **Nexam Chemical appoints Tomas Eriksson as Production Manager**

Nexam Chemical has recruited Tomas Eriksson as Production Manager for Nexam Chemical. He replaces Susanne Thygesson at that position, who has resigned from Nexam Chemical. Tomas will formally start his service on July 1, but has already begun to familiarize himself with the tasks. Tomas Eriksson will ultimately be responsible for all production at Nexam Chemical. This includes Nexam Chemical's plants in Sweden, Scotland, Poland and Hungary.

Tomas Eriksson comes most recently from the Finnish company Nordkalk Oy AB.

*"It is extremely positive to announce that we have been able to link Tomas Eriksson to Nexam Chemical. Tomas is a fantastic project manager with broad expertise in both R&D and sales and production. This is something that is of great value to us in this expansive phase. For Nexam chemical, it's not just about capacity maximization. Capability is also very important to us. Tomas background makes him very suitable to take on this assignment,"* says Johan Arvidsson CEO of Nexam Chemical.

*"Getting the opportunity to get into a well-functioning organization with a strong drive and entrepreneurial spirit is very exciting. The journey ahead is as interesting as the history with a clear expectation of growth. I hope to be able to continue to ensure a flexible and cost-effective production in order to take advantage of future opportunities,"* says Tomas Eriksson.

### **About Nexam Chemical**

*Nexam Chemical develops technology and products that make it possible to significantly improve the production process and properties of most types of plastics in a cost-effective manner and with retained production technology. The improved properties include strength, toughness, temperature and chemical resistance as well as service life. The improvements in properties that can be achieved by using Nexam Chemical's technology make it possible to replace metals and other heavier or more expensive materials with plastics in a number of applications. In applications where plastic is already used, Nexam Chemicals products can improve the manufacturing process, reducing material use and enable more environmental friendly alternatives. Example of commercial applications: pipe manufacturing, foam production and high-performance plastics. More information about the business will be found on [www.nexamchemical.com](http://www.nexamchemical.com). The company's Certified Adviser is FNCA Sweden AB. FNCA Sweden AB can be reached at [info@fnca.se](mailto:info@fnca.se) or by phone +46-8 528 00 399.*
