## Nexam Chemical appoints Jörgen Heby as Production Manager

**Nexam Chemical has recruited Jörgen Heby as production manager for Nexam Chemical. Nexam is in intense growth. Having an efficient production flow at all times in a situation with more and more products and customers is very challenging. From today, Jörgen Heby will be responsible for making this work. This includes Nexam Chemicals' facilities in Sweden, Scotland, Poland and Hungary.**

Jörgen Heby comes most recently from the Finnish company Kemira Oyj.

*"It is very satisfying that we have succeeded in convincing Jörgen Heby to start working at Nexam Chemical. We have clearly demonstrated that we can attract large global customers. In order for there to be long-term customer relationships, it is of utmost importance that we can produce our products in an efficient manner. Jörgen will build on Nexam Chemical's production system and adapt it to ever larger volumes. Jörgen Heby has solid experience from production in the chemical industry," says Johan Arvidsson, CEO of Nexam Chemical.*

*"I look forward to working with Nexam and the expectations that exist at the company. I hope with my experience in production to be able to contribute to Nexam achieving the short-term and long-term goals that have been set. The focus will be on creating opportunities for growth by continuing to develop the high demands in manufacturing." says Jörgen Heby*

### **About Nexam Chemical**

*Nexam Chemical develops technology and products that make it possible to significantly improve the production process and properties of most types of plastics in a cost-effective manner and with retained production technology. The improved properties include strength, toughness, temperature and chemical resistance as well as service life. The improvements in properties that can be achieved by using Nexam Chemical's technology make it possible to replace metals and other heavier or more expensive materials with plastics in a number of applications. In applications where plastic is already used, Nexam Chemicals products can improve the manufacturing process, reducing material use and enable more environmental friendly alternatives. Example of commercial applications: pipe manufacturing, foam production and high-performance plastics. More information about the business will be found on [www.nexamchemical.com](http://www.nexamchemical.com). The company's Certified Adviser is FNCA Sweden AB. FNCA Sweden AB can be reached at [info@fnca.se](mailto:info@fnca.se) or by phone +46-8 528 00 399.*
