Next step in our growth; Continuous deliveries to India

Within the framework of the collaboration with DIAB, Nexam Chemical has increased order intake to India. An initial order of approximately SEK 1.5 million during the spring has now been followed by orders of approximately SEK 10 million. Deliveries will mainly take place at the end of the current year, but some parts will be delivered during the beginning of 2022.

“Our success in the PET foam area continues to strengthen our geographic platform. It is gratifying and strengthens our global competitiveness. The ambition is to continue to grow in the region through success in the PET foam area”. Says Tomas Eriksson, sales manager at Nexam Chemical.

About Nexam Chemical

Nexam Chemical develops technology and products that make it possible to significantly improve the production process and properties of most types of plastics in a cost-effective manner and with retained production technology. The improved properties include strength, toughness, temperature and chemical resistance as well as service life. The improvements in properties that can be achieved by using Nexam Chemical's technology make it possible to replace metals and other heavier or more expensive materials with plastics in a number of applications. In applications where plastic is already used, Nexam Chemicals products can improve the manufacturing process, reducing material use and enable more environmental friendly alternatives. Example of commercial applications: pipe manufacturing, foam production and high-performance plastics. More information about the business will be found on www.nexamchemical.com. The company's Certified Adviser is FNCA Sweden AB. FNCA Sweden AB can be reached at info@fnca.se or by phone +46-8 528 00 399.
