Interim Report

January to June 2026

The highest quarterly sales in the company's history and positive EBIT

– Ronnie Törnqvist, CEO

Second quarter at a glance

“Recycling delivered another record quarter with growth of 76%”

Significant events during the quarter:

- The company achieved growth of 11% and positive EBIT for the first time in the company's history.
- Sales increased by 11% compared to the corresponding quarter of 2025 and the gross margin was 48%, i.e. an improvement from the corresponding quarter of 2025 by one percentage point.
- Performance Masterbatch increased sales by 7% compared to the corresponding quarter of 2025 and Performance Chemicals sales increased by 16% compared to the corresponding quarter of 2025.
- The company strengthened its global distribution network for Reactive Recycling™ with new partners in France and Turkey.

Financials during the second quarter of 2026:

- Net sales during the quarter amounted to SEK 60,037,000 (54,302,000).
- The gross margin amounted to 48% (47%) during the quarter.
- The operating profit before depreciation (EBITDA) for the quarter was SEK 4,329,000 (1,251,000).
- Available cash and cash equivalents at the end of the quarter amounted to SEK 47,898,000 and consisted of SEK 22,898,000 in bank balances and an unused overdraft facility of SEK 25,000,000. At the beginning of the financial year, bank balances amounted to SEK 12,168,000 and an unused overdraft facility of SEK 13,703,000.
- Cash flow from the operating activities during the quarter amounted to SEK -9,291,000 (-1,224,000).
- Earnings per share before and after dilution amounted to SEK 0.03 (-0.03).

NEXAM CHEMICAL

Comments from the CEO

“The Second Quarter was the strongest quarter in Nexam Chemical’s history”

The second quarter was the strongest quarter in Nexam Chemical's history. Revenue reached a new all-time high, while the Company reported positive EBIT for the first time.

> “Recycling also achieved its highest quarterly sales to date, reaching SEK 10.2 million”

Total sales increased to SEK 60.0 million (54.3), representing the highest quarterly revenue in the Company's history.

At the same time, our strategic investment in Reactive Recycling™ continued to develop very strongly and, during the quarter, the business area exceeded SEK 10 million in quarterly sales for the first time, reaching SEK 10.2 million, corresponding to growth of 76 percent compared with the same quarter last year.

This confirms that market demand for solutions enabling increased use of recycled plastics continues to grow and that our long-term investment in Reactive Recycling™ is now translating into scalable commercial growth.

The combination of record revenue, our first positive EBIT and continued strong growth in Reactive Recycling™ demonstrates that Nexam Chemical is increasingly able to combine growth with profitability.

This is the result of the investments we have made over several years in technology, application development and market presence. Those investments are now beginning to deliver results - in terms of growth, profitability and an increasingly scalable business.

Gross margin amounted to 48 percent, while EBITDA improved to SEK 4.3 million (1.3). We continue to deliver in line with our long-term ambition of achieving profitable growth with gross margins around 50 percent. Our first positive EBIT demonstrates that our strategy of combining strong growth with steadily improving profitability is beginning to deliver. Cash flow for the quarter was impacted primarily by increased inventory levels, as we chose to secure the supply of certain raw materials in response to heightened geopolitical uncertainty.

Sales within Aesthetics increased to SEK 33.5 million, compared with SEK 31.4 million in the corresponding period last year. High Temperature continued to be affected by inventory adjustments among customers in North America, while Lightweighting performed better than in the corresponding period last year, although quarterly fluctuations continue to influence the business area.

"The first positive EBIT result shows that our strategy of combining strong growth with steadily improving profitability is beginning to deliver results"

The second quarter of 2025 also represented an unusually strong comparison quarter for Recycling. Despite this, the business area delivered yet another record quarter and surpassed SEK 10 million in quarterly sales for the first time. We also see favourable conditions for continued strong development within Recycling during the second half of the year.

It is particularly gratifying to see how well our organisation has managed the rapid increase in volumes. Despite a significant increase in deliveries over recent months, we have continued to deliver with high precision and consistently high product quality. I would like to extend my sincere thanks to all our employees for their dedication and their ability to meet our customers' needs during a period of rapidly increasing volumes.

We also continue to see a very strong increase in the number of customers showing interest in our additives for recycled plastics. During the quarter, we maintained an extensive market presence by participating in several major industry exhibitions across Europe, including Plastics Recycling Show Europe in Amsterdam, where the response to our solutions was very positive. Together with customer activities in France, Poland, Sweden and the United Kingdom, these efforts have further strengthened our commercial momentum.

We continue to strengthen both our offering and our market presence through clearer positioning of our products and applications, resulting in a growing pipeline of qualified commercial opportunities. During the quarter, we also established new distribution partnerships in France and Turkey, further strengthening our presence across the European market.

"...established new distribution partnerships in France and Turkey..."

After several years of **focused** investment, we are now seeing our strategic commitment to Reactive Recycling™ translate into sustainable commercial success. An increasing number of customer projects continued strong development within Recycling and growing market interest reinforce our confidence in the long-term growth opportunity for Reactive Recycling™. At the same time, the market remains in its early stages, with regulatory drivers and increasing requirements for recycled content continuing to create favourable long-term conditions for our solutions.

Following a strong first half of the year, we are now entering the traditional holiday quarter with confidence and a growing number of opportunities ahead. I would also like to thank our customers, partners, shareholders and, above all, our employees for their trust, commitment and outstanding efforts during the first six months of the year. I wish you all a wonderful summer and look forward to an exciting second half of the year as we continue to transform our strong commercial momentum into sustainable, profitable growth.

Ronnie Törnqvist, CEO

This is Nexam Chemical

Nexam Chemical

Lighter, stronger, and recyclable material. It is part of what the world needs to grow sustainably. We at Nexam Chemical can contribute to that. We work to improve polymeric materials – plastics, in everyday terms. By adding our additives, customers can create materials that give the end products completely new and effective properties, such as lower weight, increased heat resistance and strength, longer life, higher recycling rates or more aesthetically pleasing properties such as advanced colors and their durability.

Today, we help customers improve materials that are then used in everything from computers, wind turbines and vehicle components to water pipes and food packaging. We are a group that has a turnover of SEK 200 million, has manufacturing in four countries, employs around sixty people and cooperates with reputable chemical and material companies throughout the world.

The group's head office is in Lomma, Sweden. Development of new products and applications as well as formulation evaluation takes place in our laboratories in St Andrews, Scotland and Lomma, Sweden.

Production of the company's molecules is done in St Andrews. Production of masterbatch and multifunctional masterbatch takes place in the subsidiary Nexam Performance Masterbatch.

Our assignment

To build a global business centered around making plastics better and sustainable. Deliver solid profit and growth, both organically and by acquisitions, over the years to come.

Our vision

One of the most innovative and interesting global companies in reactive chemistry with the higher purpose of driving sustainability forward.

Our business idea

We develop and produce additives that enhance properties and performance of plastics, especially solutions that contribute to more circular use of plastics.

Our thorough understanding of the market and its needs together with our core competence will be the foundation for our success and global reach.

Financial comments

Sales and profit

Net sales for the quarter totalled SEK 60,037,000 (54,302,000). Other operating income for the quarter amounts to SEK 0 (0).

The personnel expenses during the quarter totalled SEK – 12,925,000 (- 12,773,000) and other operating expenses totalled SEK - 11,266,000 (- 11,100,000). The depreciation for the period amounts to SEK - 4,192,000 (- 4,079,000) of which SEK - 1,100,000 (- 1,100,000) concerns depreciation of acquired color recipes and product rights. The profit/loss for the quarter before depreciation (EBITDA) amounted to SEK 4,329,000 (1,251,000). Earnings before financial items EBIT for the quarter amounted to SEK 137,000 (-2,828,000). The operating profit/loss before tax for the quarter came in at SEK –124,000 (- 3,291,000).

Personnel and organization

The number of employees in the Group, restated as fulltime equivalents were 58 (55) during the quarter. Of these, 49 (46) were men and 9 (9) women.

Investments

The total investment, which mainly relates to the development of new additives to improve the recycling of plastics, in intangible assets during the year amounts to SEK 4,583,000 (4,346,000) and for the tangible assets to SEK 3,791,000 (617,000).

Cash flow

The cash flow from the operating activities during the quarter amounted to SEK – 9,291,000 (- 1,224,000). Changes in working capital has affected the cash flow with SEK – 15,874,000 (-1,999,000). During the quarter, amortization of bank loans has affected the cash flow with SEK - 135,000 (- 128,000). The total cash flow for the quarter amounted to SEK -14,922,000 (2,383,000).

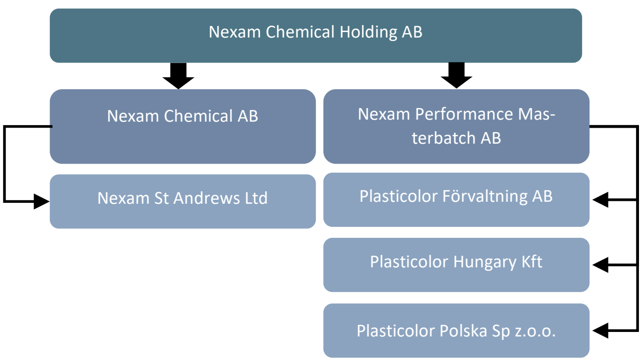
Financial position

Compared to the beginning of the year, the equity/assets ratio was 80 (74) percent, and the equity was SEK 209,704,000 (168,171,000). Cash and cash equivalents on the balance sheet date were SEK 22,898,000 (12,168,000) and above that there is an unused overdraft facility of SEK 25,000,000. At the beginning of the year, the unutilized overdraft facility was SEK 13,703,000. The Group has at the end of the period an interest-bearing debt of SEK 16,021,000 (28,219,000).

Other information

Group structure

Nexam Chemical Holding AB is a Swedish public limited liability company, and its corporate ID no. is 556919-9432. Nexam Chemical Holding AB is listed on First North Growth Market at Nasdaq Stockholm. The Group consists of the parent company Nexam Chemical Holding AB (publ) and two subgroups, Nexam Chemical and Nexam Performance Masterbatch. All companies in the Group are wholly owned.



Accounting policies

The Group applies International Financial Reporting Standards (IFRS), as adopted by the EU. This interim report has been prepared in accordance with the Annual Accounts Act and the Swedish Financial Reporting Board recommendation RFR 1 Accounting for Legal Entities. The parent company applies the Annual Accounts Act and the Swedish Financial Reporting Board recommendation RFR 2 Accounting for Legal Entities. The accounting policies and calculation methods applied are consistent with those described in the annual report for 2025.

The new standards and the amendments to and revisions of standards and new interpretation statements (IFRIC) that came into force on 1 January 2026 did not have any effect on the group's accounting for the period January to June 2026.

Intangible fixed assets. Nexam Chemical's intangible fixed assets consist of capitalized development costs for the development of additives for plastics, patents, market positions and goodwill. Development costs, patents and the market positions are written off over the period of use, while the goodwill is not written off, but the value is tested annually through an impairment test.

Split of revenue on different revenue streams. Financial information reported to the chief operating decision maker (CEO) as the basis for allocating resources and judging the group's profit or loss is divided into two different revenue streams but not divided in results. The revenue streams are Performance Chemicals and Performance Masterbatch.

Performance Chemicals consists of Nexam Chemicals product portfolio and Performance Masterbatch consists of Nexam Performance Masterbatch´s product portfolio.

Incentive program. The consideration for the staff warrants in the incentive program is reported as a free share premium fund in equity.

Appropriations. Appropriations in the parent company relate to group contributions made and are reported in the income statement.

Cash and cash equivalents. The Group has reclassified cash and cash equivalents so that the Group account is recorded as a liability and bank balances that are not part of the Group account are reported as cash and cash equivalents. A corresponding reclassification has been made for other comparative periods. This reclassification has not affected the statement of comprehensive income, but only cash and cash equivalents, current liabilities and the cash flow statement.

Transactions with related parties

During the year there have been no transactions with related parties besides renumeration to the Board of Directors and salaries to top management.

Principles for renumerations to the Board of Directors are stated in the Financial Report 2025 and from the minutes from the Annual General Meeting 12th of May 2026.

Risks and uncertainties

The Group's operations are affected by several factors which can result in a risk for the Group's operations and profit. See the annual report for 2025.

The Group assesses that the risks described in the financial reports for the group are also applicable during the second quarter. The Group assesses that no significant changes occurred in the risk assessment for the period.

Estimates and judgements

To be able to prepare the financial statements, the Board of Directors and the Management make judgements and assumptions based on available information that impact the group´s financial performance and financial position.

Estimates and judgements are evaluated on an ongoing basis and are based on historical experience and other factors, including expectations about future events that can be reasonably expected under prevailing conditions. The actual outcome may differ from the judgements made. The areas where estimates and assumptions could lead to a significant risk of adjustments to the figures reported for the company's financial performance, and position in future reporting periods, are primarily judgements about market conditions and thus the value of the Group's non-current assets. During the period the principles for estimates and judgements have remained unchanged.

This report has not been reviewed by the company's auditors

Share capital, shares and ownership

The Company's share capital totals SEK 1,974,271 divided into 102,662,092 outstanding shares. The Company only has one class of shares, and all shares have equal rights to dividends. The shares of Nexam Chemical Holding AB are listed on NASDAQ Stockholm First North Growth Market under the ticker NEXAM. Close to approximately 5.6 million shares were traded during the quarter and the average price during the period was SEK 2.70 per share.

Incentive programs

The company has one ongoing incentive program (2024/2027) with a total of 1,170,000 outstanding warrants, which all entitle the holders to subscribe for one new share. All warrants have been issued at market value, calculated according to the "Black Scholes" formula. If all currently outstanding warrants are exercised, the total dilution will be approximately 1,4% for the incentive program 2024/2027:

For more information and the full terms and conditions of incentive program 2024/2027, please see the resolutions from Annual General Meeting in 2024.

Allotment date	Price per warrant (SEK)	Earliest redemption date	Final due date	Redemp-tion price (SEK)	Outstanding warrants 30th of June 2026	Dilution if fully exercised
