News: Nexam Chemical will be granted the patent regarding the molecule MEPA in South Africa

After the notification from the European patent office that it intends to grant Nexam Chemical's patent application regarding MEPA, which was press released on 19 December 2013, Nexam Chemical has now also been notified by the South African patent office (CIPC) that it intends to grant the company's patent application regarding MEPA within short.

The granting of this patent will further strengthen Nexam Chemical's protection of the crosslinking technology developed by the company.
