News: NEXIMID 300 (PETA) in Japanese patent application by Mitsubishi Gas Chemical.

A patent application filed in Japan by Mitsubishi Gas Chemical (MGC) and Osaka Municipal Technical Research Institute has become public. The application is regarding the production of crosslinkable polyimides containing PETA, crosslinkable resin formulations and crosslinked products. Application areas include adhesives for casting and materials for printed circuit boards.

“MGC’s patent application with Nexam Chemical’s NEXIMID 300 (PETA) crosslinker is yet another sign of strength for Nexam Chemical’s technology and products”, says Daniel Röme, Director of Business Development & Innovation.

The patent application can be found via the following link (use the search word JP2014080494): <http://patentscope.wipo.int/search/en/search.jsf>
