

# Let's talk Digitalization!

Save the date - Thursday 8 June, for an opportunity to hear about the latest technological advances from SKF on the theme of Digitalization

SKF welcomes you to its Technical Press day in London, 8 June. We are gathering our senior managers, as well as an external speaker to present what SKF is already doing to adapt to the new industrial era. We will also give an update on recent customer application developments and materials.

Additional details to follow in the coming weeks.

Please make a note in your calendar - we look forward to seeing you there!
