

Press release

SKF Vertevo Capital Markets Day to be held on 17 November 2026

Gothenburg, 1 October 2026: SKF Vertevo welcomes institutional investors, financial analysts and financial media to a Capital Markets Day on 17 November 2026 in Stockholm. The Capital Markets Day marks an important milestone as SKF Vertevo prepares to become a standalone, publicly listed automotive company following the planned separation from SKF.

The event will provide deeper insights into SKF Vertevo's market position, strategy and roadmap for long-term value creation. President and CEO Kerstin Enochsson, CFO Niclas Sjöswärd and other members of the Executive Management Team will present SKF Vertevo's investment case and strategic priorities. Topics will include:

- Market trends and attractive growth opportunities.
- SKF Vertevo's position across Passenger Vehicles, Commercial Vehicles and the Vehicle Aftermarket.
- A lean and efficient company setup and automotive adapted value chain to improve efficiency and increase speed.
- SKF Vertevo's financial framework and long-term financial targets.

The event registration starts at 12:00 (CET) with a light lunch served until 13:00, when the presentations start. The presentations are expected to finish at approximately 16:30 and will be followed by refreshments and mingle.

Participants are welcome to attend in person at Epicenter, Malmskillnadsgatan 44A, Stockholm, Sweden, or to follow the presentations as a live webcast. The Capital Markets Day will be held in English.

To attend (online or in person), please register no later than 3 November 2026 via the following link: [Registration for SKF Vertevo's Capital Markets Day 2026](#).

Please note that the number of seats for on-site participation is limited. Further information on the agenda, speakers, webcast and logistics will be available on the registration website.

Press release

Since 1907, SKF has been making some of the world's most innovative bearings, seals, lubrication systems, condition monitoring solutions, and services to reduce friction. Less friction means more energy saved and by reducing it, we make industry smarter, more competitive, and more energy efficient, building a more sustainable future where we can all do more with less. SKF is represented in approximately 130 countries and has around 17,000 distributor locations worldwide. Annual sales in 2025 were SEK 91,583 million and the number of employees was 37,271. www.skf.com
