

Kingston Digital tilbyder automatisk sikkerhedskopiering i skyen fra krypterede USB drev.

- **DataTraveler Locker+ G3 beskytter din private data.**
- **Ny cloud løsning med automatisk backup**
- **USB 3.0 hastighed**

2015 International CES - Kingston Digital Europe Co LLP, en division av Kingston Technology Company Inc., der er førende indenfor hukommelsesprodukter i hele verden, annoncerede i dag en udvidet funktion med cloud backup via [DataTraveler® Locker+ G3](#) (DTLPG3) USB 3.0 til private brugere. DTLPG3 tilbyder hardwarekryptering, passwordbeskyttelse og hurtig USB 3.0 overførselshastighed til let og sikker beskyttelse af privat data.

Forbrugere har nu mulighed for automatisk at sikkerhedskopiere data på et DataTraveler Locker+ G3 til sin foretrukne backup leverandør som Google Drive™, OneDrive (Microsoft®), Amazon Cloud Drive, Dropbox eller Box via medfølgende [ClevX™ USBtoCLOUD™](#) software. Kingston® och [ClevX™](#) arbejdede første gang sammen allerede i 2012 omkring et krypteret drev med indbygget anti-malware scanning til virksomheder. Med DTLPG3, kan forbrugere sikre sig, at hvis de skulle miste deres USB drev, så vil deres fotos, personlige dokumenter og andre filer stadig være at finde - sikkert bevaret i skyen.

“We are excited to offer cloud backup to our existing fast and secure consumer level USB Flash drive,” udtalte Valentina Vitolo, Flash Business Manager, Kingston. “The DataTraveler Locker+ G3 is easy to use, durable and ensures consumers’ personal documents are safe and also always available to them.”

DataTraveler Locker + G3 kan leveres i 8GB, 16GB, 32GB og 64GB kapaciteter og understøttes af 5 års garanti, gratis teknisk support og den legendariske Kingston pålidelighed. For mere information besøg www.kingston.com.

Kingston DataTraveler Locker+ G3 Features and Specifications:

- **Hardware encryption:** the best in personal security to keep your data safe
- **Superior password protection:** user sets a password to prevent unauthorized access
- **Easy to use:** no application installation required
- **Versatile:** works interchangeably between Mac OS X and Windows systems
- **Secure:** drive locks down and reformats after 10 invalid login attempts
- **Stylish:** durable metal casing with built-in key loop
