Swedbank appoints Forensic Risk Alliance (FRA) as external investigator

Swedbank has previously decided to appoint the audit firm EY to analyse material and conduct an external investigation about the information presented on the news program “Uppdrag granskning” on Swedish Television.

To secure that the external investigation meets necessary demands Swedbank has today decided to replace EY with Forensic Risk Alliance (FRA). The external investigator will report the results of the investigation to the CEO and Swedbank’s Board of Directors, no later than before the Annual General Meeting which is to be held on March 28, 2019. The result will then be presented to other stakeholders.
